

COMMERCE SUCCESSOR AGENCY

Long Range Property Management Plan

2014

Executive Summary

As part of the 2011-12 State budget bill, the California Legislature enacted and the Governor signed Assembly Bill X1 26 (“AB 26”), requiring that each redevelopment agency in the State be dissolved and directed the wind-down activities of such agencies. The dissolution wind-down process includes a series of audits, reviews, and approvals addressing which obligations an agency is authorized to complete (enforceable obligations), how much funding may be used to meet the obligations, and the return of all un-obligated agency funds to the affected taxing entities.

The Dissolution Act requires agencies to undergo detailed Due Diligence Reviews (DDR) to determine un-obligated fund balances available for transfer to the affected taxing entities. Upon the agency’s completion of these requirements, the State Department of Finance (DOF) issues a Finding of Completion (FOC). Upon issuance of an FOC, an agency is required to submit a Long Range Property Management Plan (LRPMP) within six months to the DOF identifying the disposition and use of all remaining agency properties retained by the agency. Commerce received its FOC on May 24, 2013 and therefore the LRPMP is due to the DOF by November 24, 2013. Upon approval by the Successor Agency, the LRPMP will be submitted for review and approval by the Oversight Board and transmitted to the DOF for final action.

The LRPMP must identify that agency properties will be used in one of the following ways:

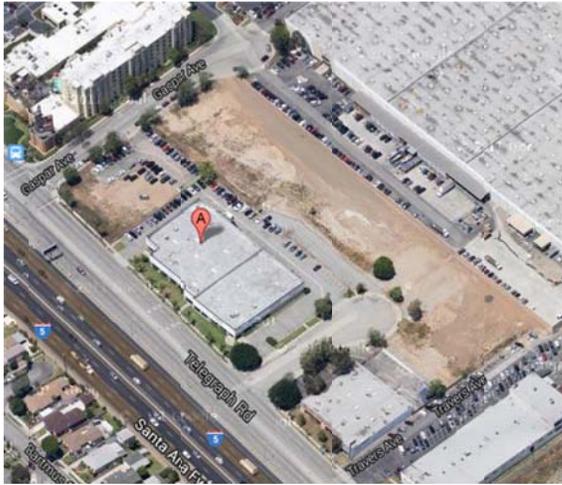

1. Use Property to Fulfill Enforceable Obligation;
2. Retention of Property for Governmental Use; and
3. Retention of Property for Future Development including sale of property.

The LRPMP must include the following information:

1. Inventory of all properties indicating proposed use or sale of each property;
2. Date acquired and intended purpose;
3. Value at acquisition and estimated current value;
4. Parcel data (address, lot size, current zoning);
5. Estimate of revenue generated by property;
6. History of environmental contamination;
7. Description of transit-oriented development potential and advancement of planning objectives; and
8. Brief history of previous development proposals/activity (if any).

The Successor Agency’s LRPMP indicates that all of its land assets are being used to fulfill enforceable obligations, serve as governmental use properties, subject to retention for future development or future sale. The following list outlines all agency properties, their recommended uses, and justification for those recommendations.

1) 5819 Telegraph Rd.

Summary

Site assembly activities concluded in 2010. The Commerce Community Development Commission (“CDC”) had been working towards the goal of creating a vibrant Telegraph Road Commercial/Entertainment Corridor. The selection of Telegraph Road for redevelopment was a logical one as it has some of the best I-5 Freeway visibility and access in the area. The proposed Telegraph Corridor is composed of several different sites. Although each project is to be developed independently, it is anticipated that each will benefit from each other’s success. The intent of the redevelopment scenario for this site is to create a destination retail/entertainment concept on the site wherein both architecture and uses are compatible with and complementary to the adjacent Citadel Outlets Shopping Center and the Commerce Casino.

In 2009, the CDC approved an Exclusive Negotiation Agreement (“ENA”) with the Craig Realty Group, the owner of the Citadel Outlets, to evaluate the potential retail and entertainment market for the site. In the Fall of 2010, the CDC authorized an extension of the ENA. The ENA with Craig Realty has lapsed. Pursuant to AB 1x 26, the CDC was not able to complete the ENA negotiations or enter into any new contractual obligations regarding the site. Nonetheless, the City of Commerce is committed to working with Craig Realty to further pursue the redevelopment vision for the site. The City desires that the site be sold to Craig Realty so that the property can be developed in accordance with the City’s planning objectives.

Land Use

Property Type: Warehouse Buildings/Vacant Lot/Land& Signage

Permissible Use: Future Development

Permissible Use Detail: Commercial (C2) Per Current Zoning Code – In addition, refer to Attachment A & Regency/ Clear Channel Outdoor Advertising

Property Information

APN: 6336-018-920

Zoning: C2

Lot Size: 478,971 s.f.

Acquisition & Valuation

Acquisition Date: June 1981- July 2009

Value at time of purchase: \$2,047,589.00

Estimated current value: \$22,500,000.00

Value Basis: Appraised

Date of estimated current value: January 31, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent to Approval of the LRPMP

Purpose for which property acquired: Commercial / Retail Development

Estimate of current parcel value: \$22,500,000.00

Contractual requirements for use of income/revenue: Reference – Attachment

History of Environmental Contamination

Phase I and Phase II studies completed. Studies identified some potential Underground Storage Tanks (UST). In addition, given the previous history of manufacturing uses on the site there may be some residual groundwater and soil concentrations of Total Petroleum Hydrocarbons (TPH) and Volatile Organic Compounds (VOC). Additional assessments and/or remediation may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located in the heart of the City's commercial/entertainment district and employment areas on a major arterial street and adjacent to the I-5 Freeway. The City has initiated a local bus service connecting both the Citadel Outlets shopping center and Commerce Casino to many local points as well as the major hotels in Downtown Los Angeles as well as linking to the Union Station in Los Angeles. The site is well served by regional bus service (MTA) and is in close proximity to the Commerce/Montebello Metrolink Station. The City is looking at partnering with various other major regional transportation initiatives including the Eastside Light Rail extension, improvements to regional rail service at the Commerce 26th Street Metrolink Station, and others to better link the regional shopping and entertainment opportunities afforded by the site to the region. This is will increase job opportunities and the tax base of the entire region.

Advancement of Planning Objectives

The intent of the City's redevelopment plans for this site is to create a destination retail/entertainment concept on the site wherein both architecture and uses are compatible with and complementary to the adjacent Citadel Outlets Shopping Center and the Commerce Casino. The scenario will serve to enhance and increase regional shopping and entertainment options.

Previous Development Proposals/Activity

In 2006, the CDC entered into an ENA with JH Snyder for the site development. The parties were not able to agree upon the details of a project at the site. In 2009, the CDC approved the ENA with the Craig Realty Group. The ENA was extended in the Fall of 2010. The parties were not able to complete negotiations for the site development before the passage of AB 1x 26.

2) Vacant Lot

Summary

This site was part of the properties that were to make up the Telegraph Road Commercial/Entertainment Corridor Project. The proposed Telegraph Corridor is composed of several different sites. The intent of the redevelopment project is to create a destination retail/entertainment concept on the site where both architecture and uses are compatible with and complementary to the adjacent Citadel Outlets Shopping Center and the Commerce Casino.

In 2009, the CDC approved an ENA with the Craig Realty Group, the owner of the Citadel Outlets, to evaluate the potential retail and entertainment market for the sites, including the subject site that would make up the Telegraph Road Corridor Project. The ENA was extended in the Fall of 2010. The ENA with Craig Realty has lapsed. Pursuant to AB 1x 26, the CDC was not able to complete the ENA negotiations or enter into any new contractual obligations regarding the site. Nonetheless, the City of Commerce is committed to working with Craig Realty to further pursue the redevelopment vision for the site. The City desires that the site be sold to Craig Realty so that the property can be developed in accordance with the City's planning objectives.

Land Use

Permissible Use: Future Development

Permissible Use Detail: Commercial (C2) Per Current Zoning Code

Property Information

APN: 6336-017-908

Zoning: C2

Lot Size: 627,017 s.f.

Acquisition & Valuation

Acquisition Date: October 1997- May 2004

Value at time of purchase: \$1,769,759.00

Estimated current value: \$22,500,000.00

Value Basis: Appraised

Date of estimated current value: January 31, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent to Approval of the LRPMP

Purpose for which property acquired: Commercial / Retail Development

Estimate of current parcel value: \$22,500,000.00

History of Environmental Contamination

Phase I and Phase II studies completed. Studies identified some potential Underground Storage Tanks (UST). In addition, given the previous history of manufacturing uses on the site there may be some residual groundwater and soil concentrations of Total Petroleum Hydrocarbons (TPH) and Volatile Organic Compounds (VOC). Additional assessments and/or remediation may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located in the heart of the City's commercial/entertainment district and employment areas on a major arterial street and adjacent to the I-5 Freeway. The City has initiated a local bus service connecting both the Citadel Outlets shopping center and Commerce Casino to many local points as well as the major hotels in Downtown Los Angeles as well as linking to the Union Station in Los Angeles. The site is well served by regional bus service (MTA) and is in close proximity to the Commerce/Montebello Metrolink Station. The City is looking at partnering with various other major regional transportation initiatives including the Eastside Light Rail extension, improvements to regional rail service at the Commerce 26th Street Metrolink Station, and others to better link the regional shopping and entertainment opportunities afforded by the site to the region. This is will increase job opportunities and the tax base of the entire region.

Advancement of Planning Objectives

The intent of the City's redevelopment plans for this site is to create a destination retail/entertainment concept on the site wherein both architecture and uses are compatible with and complementary to the adjacent Citadel Outlets Shopping Center and the Commerce Casino. The scenario will serve to enhance and increase regional shopping and entertainment options.

Previous Development Proposals/Activity

In 2006, the CDC entered into an ENA with JH Snyder for the site development. The parties were not able to agree upon the details of a project at the site. In 2009, the CDC approved the ENA with the Craig Realty Group. The ENA was extended in the Fall of 2010. The parties were not able to complete negotiations for the site development before the passage of AB 1x 26.

3) 6300 Telegraph Rd.

Summary

The CDC acquired the site in 2005 for blight removal including the demolition of a functionally obsolescent hotel building (Commerce Plaza Hotel). The CDC has been working towards the goal of creating a vibrant Telegraph Road Commercial/Entertainment Corridor with an emphasis on retention and expansion of job opportunities for the community and region as a whole. This includes (wherever possible) the retention of existing long standing local businesses.

In 2009 the CDC acquired property owned by Justman Packaging and Display (“Justman”), located at 5819-5923 Telegraph Road, for the Urban Entertainment Center Project. The CDC committed to working with Justman to find a suitable replacement site for its business. To that end, in October 2010, the CDC approved an ENA with Justman so that they could analyze the feasibility of redeveloping the site at 6300 Telegraph (former Commerce Plaza Hotel Site) to house the Justman Packaging use. This site is an important site for Justman in that it provides similar access and visibility and will allow the City to retain an important employment generator that has been displaced because of the assembly of the Urban Entertainment Center site.

The development of this site with a state of the art approximately 60,000 s.f. corporate headquarters facility for Justman Packaging, a very successful local business, will enhance employment opportunities for the area. The building’s architecture and site layout will be done in a way to be compatible with future uses and developments in the area.

Land Use

Property Type: Vacant Lot/Land

Permissible Use: Future Development

Permissible Use Detail: Commercial (C2) Per Current Zoning Code

Property Information

APN: 6336-008-900

Zoning: C2

Lot Size: 125,453s.f.

Acquisition & Valuation

Acquisition Date: October 2005

Value at time of purchase: \$2,068,568.00

Estimated current value: \$3,500,000.00

Value Basis: Appraised

Date of estimated current value: January 31, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent to Approval of the LRPMP

Purpose for which property acquired: Relocation of Commerce business currently located in
No. 1/ No. 2 properties aforementioned

Estimate of current parcel value: \$3,500,000.00

Contractual requirements for use of income/revenue:

History of Environmental Contamination

No environmental contamination on the site is known at this time. Phase I or Phase II assessments and/or remediation may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located on the Telegraph Road Commercial Corridor and has excellent access to regional public transportation (MTA) service. The City has local bus service connecting several locations in Commerce to many local points as well as the major hotels in Downtown Los Angeles as well as linking to the Union Station in Los Angeles. The site is in close proximity to the Commerce/Montebello Metrolink Station. The City is looking at partnering with various other major regional transportation initiatives including the Eastside Light Rail extension, improvements to regional rail service at the Commerce 26th Street Metrolink Station, and others to better link jobs to the regional transportation network.

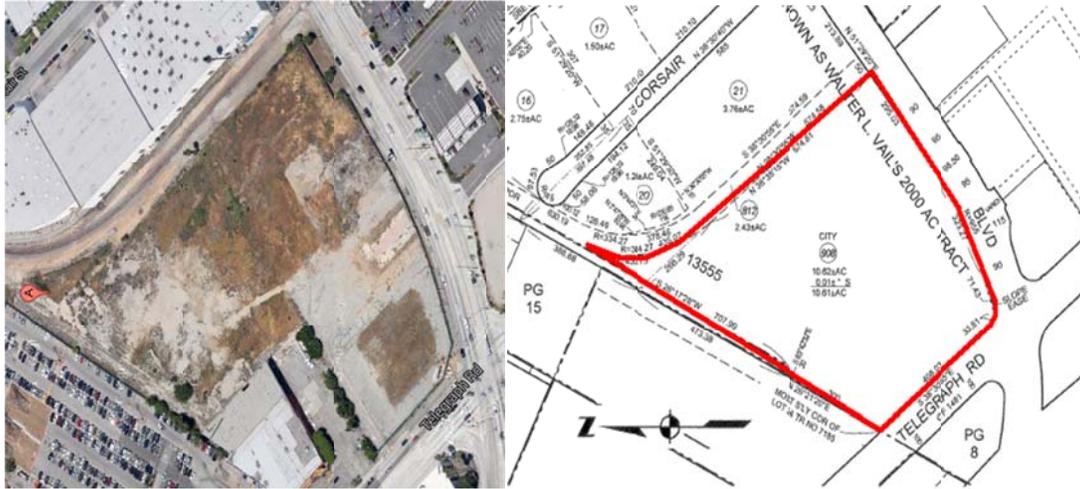

Advancement of Planning Objectives

The intent of the redevelopment scenario for this site will be to allow for the retention of a long standing local business that was displaced as part of the property acquisition for the Telegraph Road Corridor Commercial/Entertainment project. The proposed redevelopment plan will also allow the City to retain and enhance job opportunities for the region.

Previous Development Proposals/Activity

In 2009, the Commission approved an EIR with Gonzales Automotive Group to explore the feasibility of developing the site with a Chrysler Automobile Dealership. However, it was determined that the site was not suitable for a new car dealership because of construction and site development costs as well as the economic downturn of 2008 which had profound impacts on the sales and marketing of new automobiles. There has been interest from retail developers for this property. Trip generation to the site for these kinds of users would be a challenge as both the access to the site and its unique size and shape (located between the I-5 Freeway and Telegraph Road) next to a major intersection (Telegraph and Washington) serve to create traffic constraints for retail users.

4) 6233 Telegraph Rd.

Summary

This site was part of the properties that were to make up the Telegraph Road Commercial/Entertainment Corridor Project. The proposed Telegraph Corridor is composed of several different sites. The intent of the redevelopment project is to create a destination retail/entertainment concept on the site where both architecture and uses are compatible with and complementary to the adjacent Citadel Outlets Shopping Center and the Commerce Casino.

The Commerce Casino has expressed an interest in a potential purchase of the site. The Successor Agency and Commerce Casino have exchanged correspondence regarding the preferred disposition of the site to the Commerce Casino and its subsequent redevelopment which would solidify the City's brand as a premier retail and entertainment destination consistent with the vision for the Telegraph Road Corridor.

Land Use

Property Type: Warehouse Building/Vacant Lot/ Land & Mixed Use

Permissible Use: Future Development

Permissible Use Detail: Vacant Lot Stahl Trust Site

Property Information

APN: 6336-010-908

Zoning: C2

Lot Size: 462,607 s.f.

Acquisition & Valuation

Acquisition Date: January 1996

Value at time of purchase: \$3,799,049.00

Estimated current value: \$10,500,000.00

Value Basis: Appraised

Date of estimated current value: January 31, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent to Approval of the LRPMP

Purpose for which property acquired: Potential Commercial/ Retail Development

Estimate of current parcel value: \$10,500,000.00

Contractual requirements for use of income/revenue: Reference - Attachment

History of Environmental Contamination

No environmental contamination on the site is known at this time. Phase I or Phase II assessments and/or remediation may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located on the Telegraph Road Commercial Corridor and has excellent access to regional public transportation (MTA) service. The City has local bus service connecting several locations in Commerce to many local points as well as the major hotels in Downtown Los Angeles as well as linking to the Union Station in Los Angeles. The site is in close proximity to the Commerce/Montebello Metrolink Station. The City is looking at partnering with various other major regional transportation initiatives including the Eastside Light Rail extension, improvements to regional rail service at the Commerce 26th Street Metrolink Station, and others to better link jobs to the regional transportation network.

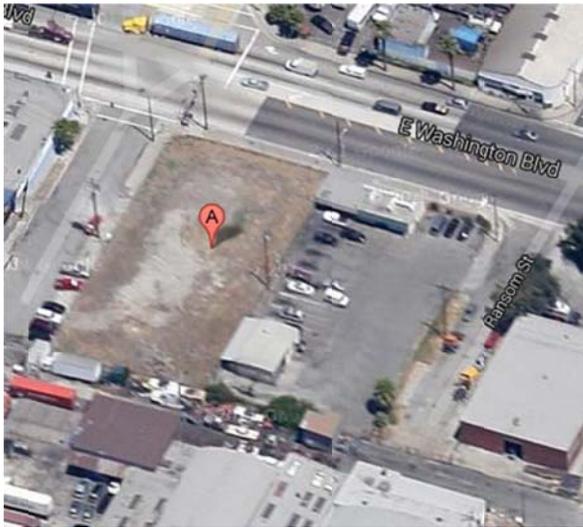

Advancement of Planning Objectives

The intent of the redevelopment scenario for this site will be to create a destination retail/entertainment concept on the site wherein both architecture and uses are compatible with and complementary to the adjacent Citadel Outlets Shopping Center and the Commerce Casino. The scenario will serve to enhance and increase regional shopping and entertainment options.

Previous Development Proposals/Activity

In 2008, the Commission approved an EIR with Golden Boy Productions to explore the feasibility of developing the site with a state of the art 4,000 seat multi-purpose entertainment venue. During the course of due diligence for the redevelopment concept it was determined the proposed use was not viable at this location due to the changing nature of entertainment and major competition from similar venues in nearby Downtown Los Angeles. The EIR expired. There has been interest from retail developers for this property, including the Commerce Casino. The proposed uses include retail uses including the sale of soft goods along with a fast food and sit down restaurants.

5) 4800 E Washington Blvd.

Summary

The CDC acquired the property in 1989 for blight removal and for land assembly to remedy the historic pattern of development on lots with insufficient size, shape and access. The goal was to encourage a unified cohesive master development with proper design and orientation. The overall site 13 acres + bounded on the north by Washington Boulevard on the east by Atlantic Avenue, south by Sheila Street, and on the west by the I-710 Freeway, and is anticipated for a retail development with approximately 160,000 square feet of destination retail. A draft Purchase and Sale Agreement was approved by the Successor Agency and Oversight Board for the sale of approximately .5 acre owned by the Commission for land assembly with an adjacent Commission owned parcel by the Venture Retail Group. However, the Agreement was not processed because of the passage of AB 1484 and the requirement that redevelopment properties be disposed of pursuant to a property management plan.

Land Use

Property Type: Vacant Lot/Land

Permissible Use: Future Development

Permissible Use Detail: Commercial/Manufacturing Per Current Zoning Code

Property Information

APN: 5244-033-900

Zoning: CM1

Lot Size: 19,570 s.f.

Acquisition & Valuation

Acquisition Date: June 1989

Value at time of purchase: \$985,000.00

Estimated current value: \$587,000.00

Value Basis: Appraised

Date of estimated current value: June 21, 2012

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent to Approval of the LRPMP

Purpose for which property acquired: Potential Commercial/Retail Development

Estimate of current parcel value: \$587,000.00

Contractual requirements for use of income/revenue: None

History of Environmental Contamination

A Geotechnical Report was generated in 2011 by Twining Moore for the entire site 13+ acre site concluding that the site was suitable for redevelopment and not subject to special considerations relating to design of structural footings or foundations. This was a geotechnical report only. There have been previous Phase I studies completed. They identified some potential Underground Storage Tanks (UST). In addition, given the previous history of manufacturing uses on the site there may be some residual groundwater and soil concentrations of concern. Additional Phase I and Phase II studies may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located at a major commercial/industrial intersection of Washington/Atlantic and is abutting a key on/off ramp at the I-710 Freeway.

Advancement of Planning Objectives

Reuse of the property for destination retail will lead to increase sales and property taxes, thereby benefiting the City, County, and State. In addition, the proposed destination retail project will provide the residents access to much needed goods and services as well as increased employment opportunities.

Previous Development Proposals/Activity

There have been previous development proposals/concepts for the entire 13+ acre site, ranging from the development of over 200,000 square feet of high tech industrial/manufacturing space including business incubator space, to a railyard expansion facility for the adjacent BNSF/Hobart Yard Facility; the railyard facility is not a desired use for the City.

6) 4957 Shiela St.

Summary

The CDC acquired the property in 1980 for blight removal and for land assembly to remedy the historic pattern of development on lots with insufficient size, shape and access. The goal was to encourage a unified cohesive master development with proper design and orientation. A draft Purchase and Sale Agreement was approved by the Successor Agency and Oversight Board for the sale of approximately .5 site acre owned by the CDC with an adjacent Commission owned parcel by the Venture Retail Group. However, the Agreement was not processed because of the passage of AB 1484 and the requirement that redevelopment properties be disposed of pursuant to a property management plan. The overall site 13 acres + bounded on the north by Washington Boulevard on the east by Atlantic Avenue, south by Sheila Street, and on the west by the I-710 Freeway, and is anticipated for a retail development with approximately 160,000 square feet of destination retail.

TOD Potential

The site is located at a major commercial/industrial intersection of Washington/Atlantic and is abutting a key on/off ramp at the I-710 Freeway.

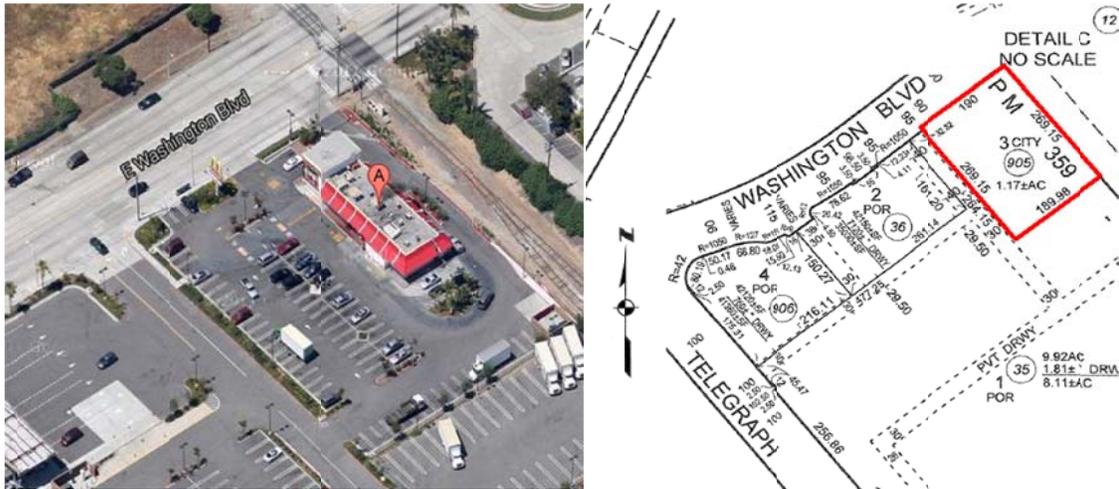

Advancement of Planning Objectives

Reuse of the property for destination retail will lead to increase sales and property taxes, thereby benefiting the City, County, and State. In addition, the proposed destination retail project will provide the residents access to much needed goods and services as well as increased employment opportunities.

Previous Development Proposals/Activity

There have been previous development proposals/concepts on the entire 13+acre site ranging from the development of 200,000 square feet of high tech industrial/manufacturing space including business incubator space, to a rail yard expansion facility for the adjacent BNSF/Hobart Yard Facility; the railyard use is not a desirable use for the City.

7) 6350 E. Washington Blvd.

Summary

This site was acquired by the CDC in 1992 from the Firestone Corporation as part of a larger 12 acre site. The CDC acquired the overall site to promote the economic revitalization of the area, and encourage appropriate land uses as the Telegraph Road Corridor transitions from industrial to commercial land uses. The overall site was developed with three buildings housing three tenants. In addition to the McDonalds, the other tenants on the site included a former retail/service use (Firestone Tires) and the other as a warehouse use (Allan Paper).

A Costco Business to business center was constructed on the adjacent 8 acre site subject to a Disposition and Development Agreement (DDA) as a Recognized Enforceable Obligation. The CDC continues to receive rent revenue from the McDonalds tenant.

Land Use

Property Type: Commercial

Permissible Use: Sale of Property

Permissible Use Detail: McDonalds Corp.

Property Information

APN: 6336-009-905

Zoning: C2

Lot Size: 49,440 s.f.

Acquisition & Valuation

Acquisition Date: January 1992

Value at time of purchase: \$10.5 million for the entire 12 acre site

Estimated current value: \$1.3 million

Value Basis: Market

Date of estimated current value: November 1, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent to Approval of the LRPMP

Purpose for which property acquired: Site Assembly/Future Development (Costco Business Center completed in 2011)

Estimate of current parcel value: \$1.3 million

Contractual requirements for use of income/revenue: Reference - Attachment

History of Environmental Contamination

No environmental contamination on the site is known at this time. Phase I or Phase II assessments and/or remediation may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located within the Telegraph Road Commercial Corridor and has excellent access to regional public transportation (MTA) service. The City has local bus service connecting several locations in Commerce to many local points as well as the major hotels in Downtown Los Angeles as well as linking to the Union Station in Los Angeles. The site is in close proximity to the Commerce/Montebello Metrolink Station.

Advancement of Planning Objectives

Maintenance of the use at this location serves the residents and employment base.

Previous Development Proposals/Activity

None noted.

8) Costco Site Corner Lot Pad

Summary

This site was acquired by the Commission in 1992 from the Firestone Corporation as part of a larger 12 acre site. The Commission acquired the overall site to promote the economic revitalization of the area, and encourage appropriate land uses as the Telegraph Road Corridor transitions from industrial to commercial land uses. The overall site was developed with three buildings housing three tenants of which the McDonalds still remains.

Except for the existing McDonalds tenancy, the site was demolished for a Costco Business to business center was constructed on the adjacent 8 acre site subject to a Disposition and Development Agreement (DDA) as a Recognized Enforceable Obligation. This site was graded at the time the Costco Business to Business Center was constructed but was not improved pending final clearance from the Regional Water Board relating to potential groundwater contamination issues. The Regional Water Board subsequently gave a No Further Action clearance after ground water monitoring demonstrated no contamination concerns. The site is cleared for development.

Land Use

Property Type: Vacant Lot/ Land

Permissible Use: Fulfill Enforceable Obligation

Permissible Use Detail: Costco Site Corner Lot Pad

Property Information

APN: 6336-009-906

Zoning: C2

Lot Size: 41,772 s.f.

Acquisition & Valuation

Acquisition Date: January 2009

Value at time of purchase: \$10.5 million for the entire 12 acre site

Estimated current value: \$1 million

Value Basis: Market

Date of estimated current value: May 1, 2013

Proposed sale value: \$1,000,000.00

Proposed sale date: November 2013

Purpose for which property acquired: Potential Retail/Commercial Development. Site entitled for 2 restaurant buildings with drive-through.

Estimate of current parcel value: \$1 million

Contractual requirements for use of income/revenue:

History of Environmental Contamination

The Regional Water Board subsequently gave a No Further Action clearance after ground water monitoring demonstrated no contamination concerns. The site is cleared for development.

TOD Potential

The site is located within the Telegraph Road Commercial Corridor and has excellent access to regional public transportation (MTA) service. The City has local bus service connecting several locations in Commerce to many local points as well as the major hotels in Downtown Los Angeles as well as linking to the Union Station in Los Angeles. The site is in close proximity to the Commerce/Montebello Metrolink Station.

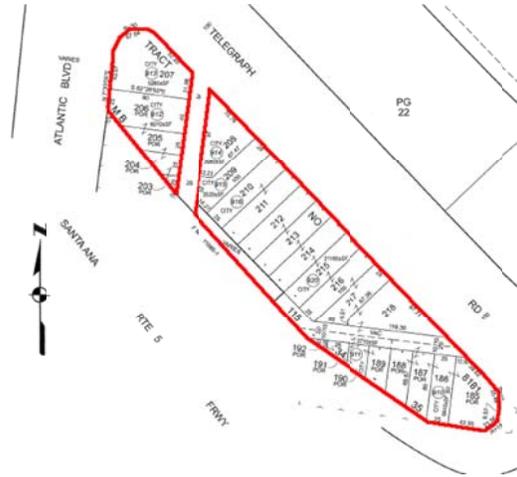

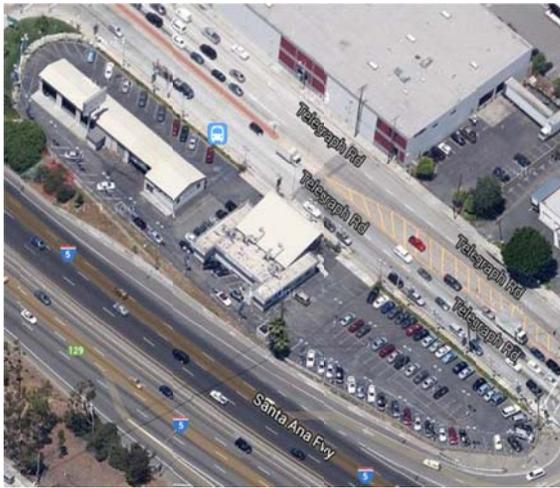

Advancement of Planning Objectives

Development of new uses at this location serves the residents and employment base.

Previous Development Proposals/Activity

None noted.

9) Commerce Hyundai Car Dealership

Summary

The CDC acquired the property in 1993 to assist the retention of an auto dealership (Ford). The Ford dealership was subsequently replaced with a used car dealership franchise (Hertz) in 1995 which operated there until 1999. In 2007 Hyundai approached the Commission for assistance with constructing state of the art facility improvements to establish a Hyundai new car and used car sales operation. Commission assistance was provided to assist with the establishment and subsequent retention and stabilization efforts. The site has excellent visibility and access from the I-5 Freeway but suffers from some physical constraints that limit inventory storage and display.

Advancement of Planning Objectives

Maintenance of open space in a highly urbanized setting is critical quality of life for the residents.

Previous Development Proposals/Activity

None

11) 5550 Harbor St.

Summary

Formerly was an Orange Whip Corporate tenant location. Property was acquired for a public purpose to provide community and city services to the residents.

Land Use

Property Type: Public Building
Permissible Use: Governmental Use
Permissible Use Detail: City Hall Annex/Warehouse

Property Information

APN: 6335-025-903
Zoning: M2
Lot Size: 47,597 s.f.

Acquisition & Valuation

Acquisition Date: January 1988
Value at time of purchase: \$198,328.00
Estimated current value: \$285,600.00
Value Basis: Book
Date of estimated current value: November 1, 2013
Proposed sale value: N/A
Proposed sale date: N/A
Purpose for which property acquired: Governmental Use
Estimate of current parcel value: \$285,600.00
Contractual requirements for use of income/revenue: None

History of Environmental Contamination

None known at this time.

TOD Potential

N/A

Advancement of Planning Objectives

To provide community and city services to the residents.

Previous Development Proposals/Activity

None.

12) Transportation Center

Summary

Formerly was a Coast Detergent Facility. The property acquired and improvements constructed for a transportation and fleet servicing facility. Said facility provides necessary storage and repair facilities for City's public transportation vehicles.

Land Use

Property Type: Public Building
Permissible Use: Governmental Use
Permissible Use Detail: Transportation Center

Property Information

APN: 6335-025-906
Zoning: M2
Lot Size: 102,919s.f.

Acquisition & Valuation

Acquisition Date: September 1991
Value at time of purchase: \$2,427,720.00
Estimated current value: \$2,427,720.00
Value Basis: Book
Date of estimated current value: November 1, 2013
Proposed sale value: N/A
Proposed sale date: N/A
Purpose for which property acquired: Governmental Use-Transportation Center
Estimate of current parcel value: \$2,427,720.00
Contractual requirements for use of income/revenue: None

Proposed sale value: N/A

Proposed sale date: N/A

Purpose for which property acquired: Governmental use for water utility

Estimate of current parcel value: \$411,324.00

Contractual requirements for use of income/revenue: None

History of Environmental Contamination

None known at this time.

TOD Potential

N/A

Advancement of Planning Objectives

To provide essential water utility services to the residents.

Previous Development Proposals/Activity

None

15) Landscape Area

Summary

Site was required as a Public Park as a condition of Subdivision Tract Map No. 37566.

Land Use

Property Type: Park

Permissible Use: Governmental Use

Permissible Use Detail: Landscape Area/Public Park

Property Information

APN: 6357-003-928

Zoning: PF

Lot Size: 13,368 s.f.

Acquisition & Valuation

Acquisition Date: July 2003

Value at time of purchase: \$13,606.00

Estimated current value: \$15,540.00

Value Basis: Book

Date of estimated current value: November 1, 2013

Proposed sale value: N/A

Proposed sale date: N/A

Purpose for which property acquired: Governmental use as passive open space.

Estimate of current parcel value: \$15,540.00

Contractual requirements for use of income/revenue: None

History of Environmental Contamination

None known at this time.

Advancement of Planning Objectives

Maintenance of open space in a highly urbanized setting is critical quality of life for the residents.

Previous Development Proposals/Activity

None

16) Vacant Lot

Summary

Site was required as a side yard as a condition of Subdivision Tract Map No. 37566.

Land Use

Property Type: Vacant Lot/Land Required Side Yard

Permissible Use: Governmental Use

Permissible Use Detail: Landscape Area

Property Information

APN: 6357-003-929

Zoning: R3

Lot Size: 460 s.f.

Acquisition & Valuation

Acquisition Date: December 1979

Value at time of purchase: \$182.00

Estimated current value: \$295.00

Value Basis: Book

Date of estimated current value: November 1, 2013

Proposed sale value: N/A

Proposed sale date: N/A

Purpose for which property acquired: Landscape area

Estimate of current parcel value: \$295.00

None noted.

TOD Potential

N/A

Advancement of Planning Objectives

Addressing blighting influences in the neighborhood is a critical planning objective.

Previous Development Proposals/Activity

None

21) 2207 S. Atlantic Blvd.

Summary

The Commission acquired the property in 1989 for blight removal and for land assembly to remedy the historic pattern of development on lots with insufficient size, shape and access. In 1991 the building structure was demolished and the site cleared. The goal was to encourage a unified cohesive development with proper design and orientation and to have a site that may be suitable as a receiving site for existing local businesses displaced by redevelopment activities from other sites.

Land Use

Property Type: Vacant Lot
Permissible Use: Sale of Property
Permissible Use Detail: Vacant Lot

Property Information

APN: 5244-019-902
Zoning: CM1
Lot Size: 10,000 s.f.

Acquisition & Valuation

Acquisition Date: March 1989

Value at time of purchase: \$600,000.00

Estimated current value: \$200,000.00

Value Basis: Market

Date of estimated current value: November 1, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent to Approval of LRPMP

Purpose for which property acquired: Site Assembly/Future Development

Estimate of current parcel value: \$200,000.00

Contractual requirements for use of income/revenue: None

History of Environmental Contamination

Additional Phase I and Phase II studies may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located along the major arterial street of Atlantic Boulevard and is well served by regional and local public transportation.

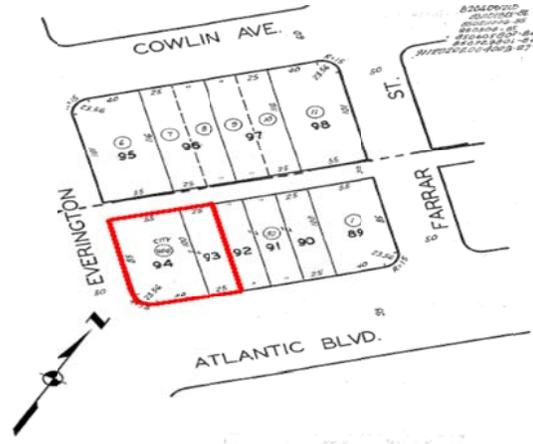

Advancement of Planning Objectives

Reuse of the property for business retention will strengthen the business base of the City. In addition, said lot could be used for public parking purposes to respond to market demand if economic conditions change in the area.

Previous Development Proposals/Activity

None.

22) 2143 S. Atlantic Blvd.

Summary

The Commission acquired the property in 1985 for blight removal and for land assembly to remedy the historic pattern of development on lots with insufficient size, shape and access. The goal was to encourage a unified cohesive development with proper design and orientation and to have a site that may be suitable as a receiving site for existing local businesses displaced by redevelopment activities from other sites.

Land Use

Property Type: Vacant Lot

Permissible Use: Sale of Property

Permissible Use Detail: Vacant Lot

Property Information

APN: 5244-014-904

Zoning: CM1

Lot Size: 7,500 s.f.

Acquisition & Valuation

Acquisition Date: March 1985

Value at time of purchase: \$114,000.00

Estimated current value: \$150,000.00

Value Basis: Market

Date of estimated current value: November 1, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent to Approval of LRPM

Purpose for which property acquired: Site Assembly/Future Development

Estimate of current parcel value: \$150,000.00

Contractual requirements for use of income/revenue: None

History of Environmental Contamination

Additional Phase I and Phase II studies may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located along the major arterial street of Atlantic Boulevard and is well served by regional and local public transportation.

Advancement of Planning Objectives

Reuse of the property for business retention or business attraction will strengthen the business and economic base of the City.

Previous Development Proposals/Activity

Several development concepts involving acquisition of this site for assembly with an abutting parcel (former Drive Thru Dairy use) and redevelopment for retail/service opportunities.

23-25) 4901/4903/4905/4909 E. Washington Blvd. & Vacant Lot

Summary

The Commission acquired the property in 1986 for blight removal and for land assembly to remedy the historic pattern of development on lots with insufficient size, shape and access. The goal was to encourage a unified cohesive development with proper design and orientation and to have a site that may be suitable as a receiving site for existing local businesses displaced by redevelopment activities from other sites.

Land Use

Property Type: Commercial & Vacant Lot/Land

Permissible Use: Sale of Property

Permissible Use Detail: Calbest Portable Welder Repair, Inc & Vacant Lot

Property Information

APN: 5244-032-900, 5244-032-901, 5244-032-902

Zoning: CM1

Lot Size: 19,948 s.f.

Acquisition & Valuation

Acquisition Date: March 1986, June 1995

Value at time of purchase: \$300,967.00

Estimated current value: \$438,474.00

Value Basis: Book

Date of estimated current value: November 1, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent to Approval of LRPMP

Purpose for which property acquired: Site Assembly/Future Development

Estimate of current parcel value: \$90,500.00

Contractual requirements for use of income/revenue: None

History of Environmental Contamination

There have been previous Phase I studies completed. In addition, given the previous history of manufacturing uses on the site there may be some residual groundwater and soil concentrations of concern. Additional Phase I and Phase II studies may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located at a major commercial/industrial intersection of Washington/Atlantic and is abutting a key on/off ramp at the I-710 Freeway.

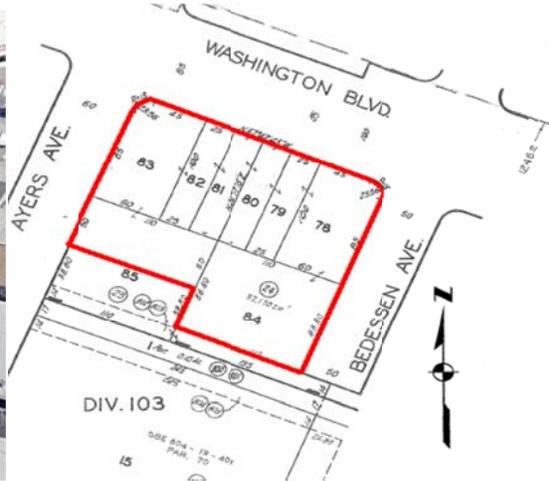

Advancement of Planning Objectives

Reuse of the property for specialized retail service will lead to increase sales and property taxes, thereby benefiting the City, County, and State. In addition, redevelopment of the site will serve to assist local business retention and expansion opportunities.

Previous Development Proposals/Activity

A local specialized retail business has contacted the Commission expressing an interest in redeveloping the property for the construction of an approximately 12,000 s.f. building with surface parking. Other options on this site include possible neighborhood serving retail/commercial. With the redevelopment of the 13+ acre site to the south, it is anticipated this may lead to increased interest in redeveloping the site.

26) 4560 E. Washington Blvd.

Summary

The Commission acquired the property in 1990 to facilitate construction of a truck fuel stop to serve the large number of local and regional serving trucks. The site has excellent visibility and access from the I-710 Freeway but suffers from some physical constraints that limit the proper access and serving of larger trucks.

Land Use

Property Type: Mixed Use

Permissible Use: Sale of Property

Permissible Use Detail: Ron Sarakbi Commerce Truck Stop

Property Information

APN: 5243-026-024

Zoning: CM1

Lot Size: 37,170 s.f.

Acquisition & Valuation

Acquisition Date: July 1990

Value at time of purchase: \$580,146.00

Estimated current value: \$1,500,000.00

Value Basis: Market

Date of estimated current value: November 1, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent To Approval of the LRPMP

Purpose for which property acquired:

Estimate of current parcel value: \$2,254,635.00

Contractual requirements for use of income/revenue: Refer to Exhibit M

History of Environmental Contamination

Phase I and Phase II studies completed. Studies identified some potential Underground Storage Tanks (UST). In addition, given the previous history of manufacturing uses on the site there may be some residual groundwater and soil concentrations of Total Petroleum Hydrocarbons (TPH) and Volatile Organic Compounds (VOC). Additional assessments and/or remediation may be necessary prior to commencement of grading/construction activities.

TOD Potential

The site is located on a major regional arterial (Washington Boulevard) is near a key on/off ramp at the I-710 Freeway.

Advancement of Planning Objectives

Maintenance of the use at this location will serve the local business community including the trucking industry.

Previous Development Proposals/Activity

None at this time. In 2009, the Truck Stop owner approached the Commission to purchase the property but given the purchase price offered and the revenue stream from the lease payments the Commission elected not sell the property.

27)7025 E. Slauson Ave.

Summary

The Commission acquired the property in 1995 to facilitate building improvements for business attraction. The use is a construction materials sales company (specialized retail) that serves the region. The site has convenient access but suffers from some physical constraints that limit the its redevelopment potential as the north half of the site (the rear portion) is limited to surface uses indefinitely due to the presence of methane gases from a former landfill in the area.

Land Use

Property Type: Commercial

Permissible Use: Sale of Property

Permissible Use Detail: Structural Materials

Property Information

APN: 6356-044-025

Zoning: M2

Lot Size: 3.67 acres

Acquisition & Valuation

Acquisition Date: November 1995

Value at time of purchase: \$1,601,500.00

Estimated current value: \$2,880,000.00

Value Basis: Market

Date of estimated current value: November 1, 2013

Proposed sale value: Premised Upon Negotiations

Proposed sale date: Subsequent To Approval of the LRPMP

Purpose for which property acquired: Business Attraction and Environmental Mitigation

Estimate of current parcel value: \$2,880,000

Contractual requirements for use of income/revenue: Refer to Exhibit N

History of Environmental Contamination

Phase I and Phase II studies have been done for the site. The primary issue is the presence of methane gas the byproduct of a former landfill in the area (Fudernick Dump). A monitoring system has been in place within the building since 1995 and recently a methane gas ventilation and processing system has been installed on the site to protect against over concentration of the gas.

TOD Potential

The site is located on a major east/west arterial street.

Advancement of Planning Objectives

Maintenance of the use at this location serves the construction and building supply industry.

Previous Development Proposals/Activity

None noted.
