Office of the City Administrator

March 24, 2011

To the Honorable Mayor, Members of the City Council and Citizens of the City of Commerce:

It is our pleasure to submit the Comprehensive Annual Financial Report (CAFR) of the City of Commerce for the fiscal year ended June 30, 2010. Responsibility for the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. In our opinion, the data is accurate in all material aspects, is presented in a manner designed to fairly set forth the financial position and results of operations of the City, and contains all disclosures necessary to enable the reader to gain an understanding of the City's financial affairs. State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

The financial statements are prepared in accordance with Generally Accepted Accounting Principles (GAAP) as promulgated by the Government Accounting Standards Board (GASB). This report consists of management's representations concerning the finances of the City of Commerce, California. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Mayer McCann Hoffman, P.C., a public accounting firm fully licensed and qualified to perform audits of the State and local governments within the State of California. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Commerce, California for the fiscal year ended June 30, 2010, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement

"Where Quality Service Is Our Tradition"

presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Commerce, California's financial statements for the fiscal year ended June 30, 2010, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of *Management's Discussion and Analysis (MD&A)*. This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors in the financial section of the CAFR.

Profile of the City of Commerce

The City of Commerce, incorporated in 1960 is located within the east-central portion of the County of Los Angeles, approximately 6 miles southeast of downtown Los Angeles and 20 miles northeast of the City of Long Beach and the Pacific Ocean. The City is oriented to industrial uses with industrially-zoned land comprising approximately 64% of all land in the City. Residentially-zoned property consists almost entirely of five separate neighborhoods with approximately 3,430 residential units. The City is a regional center of employment in the Los Angeles basin, with the business employee population of approximately 55,000 persons considerably exceeding a residential population of approximately 13,400. The City's land mass encompasses 6.6 square miles.

The City of Commerce, a general law city, was incorporated on January 28, 1960. The City operates under the Council-Administrator form of municipal government. The City Council appoints the City Administrator who is responsible for the day-to-day administration of City business and the coordination of all departments of the City. Policymaking and legislative authority are vested in the City Council, which consists of the Mayor and four Council members. The City Council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and appointing the City Attorney. The City Administrator is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government. The five-member City Council is elected on a biennial cycle subject to four-year alternating terms, at large, on a non-partisan basis. The Mayor is selected by the City Council from among its members, serving a one-year term.

The City of Commerce, as a contract city, provides a full range of services, including police (as a contract member of the Los Angeles County Sheriff's Department), fire protection (as a contract member of the Los Angeles County Fire Department), water service, street and infrastructure maintenance and construction, recreational and cultural services, planning and community development and general administration. The City of Commerce also is financially accountable for the legally separate Commerce Community Development

Commission (aka the Commerce Redevelopment Agency). The City has accounted for the Agency as "blended" component units and therefore they have been included as an integral part of the City of Commerce's financial statements.

The annual budget serves as the foundation for the City of Commerce's financial planning and control. All departments of the City of Commerce are required to submit requests for appropriation to the City Administrator and Finance Director each year. Administrator and Finance Director use these requests as the starting point for developing a proposed budget. The City Administrator and Finance Director then presents this proposed budget to the City Council for review. The City Council is required to hold public hearings on the proposed budget and to adopt a final budget no later than June 30, the close of the City of Commerce's fiscal year. The appropriated budget is prepared by fund (e.g., general), department (e.g., public works), and program (e.g., engineering). Department heads may make transfers of appropriations within a department. Transfers of appropriations between departments within the same fund require the City Administrator's approval. Supplemental appropriations during the year and/or transfers between funds, however, require approval of the City Council. The City utilizes an encumbrance accounting system, whereby commitments such as purchase orders are recorded during the year. Unexpended or unencumbered appropriations lapse at the end of the fiscal year. Encumbered appropriations are re-appropriated in the ensuing year's budget. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted.

Local Economy

The City of Commerce economic environment is showing signs of recovery from the Great Recession. Revenues appear to have stabilized, albeit at a much lower level than past years. The City Council continues to focus on diversifying its economic base, along with the maintenance of its arterial streets and/or roadways, continued public safety enhancements and beautification of our neighborhoods / business districts, the continued expansion of the Citadel Outlet Mall, and the redevelopment of the Telegraph Corridor are integral policy objectives.

Making the most of City's resources for the benefit of the entire community is at the heart and soul of the City Council's commitment to fiscal management and to economic development. The Council seeks to build Commerce's revenue base by attracting jobs and businesses to the City. Clearly, the ongoing emphasis is on sustainability, investment, and reinvestment. These objectives will continue to build a strong healthy community and improve the quality of life for Commerce residents, businesses, and visitors.

Long-term financial planning

The City's five-year financial forecast for operating revenues and expenditures is based primarily on anticipated commercial, industrial and residential development. The forecast produces an evaluation of the City's financial position as projected growth triggers increased service demands. The forecast projects recurring expenditures increasing at an annual average rate of 2.5%, while the average five-year rate for revenues is projected to increase at a slightly lower pace. The rise in expenditures is attributed for the most part to personnel, related benefit costs and the ongoing cost of operations.

As opposed to preceding years, the Commerce City Council will not be entertaining a 5-year forecast of Capital Improvement Projects until the latter part of FY 2010-11. As with many local governments, capital projects are being deferred until staff has a better grasp of the City's financial position during these difficult times. All of these investments in the various areas reflect the City Council's commitment to maintain or improve the City of Commerce, and provide our community with the highest possible service. Additionally, an even more important tool, a 5-year Financial Forecast is perpetually maintained to identify and focus on current economic conditions. This document is used extensively in the annual budget preparation, as well as throughout the fiscal year to assess any state and local economic/political action that might impact The City of Commerce.

Cash management

Cash temporarily idle during the year was invested in instruments permitted under Section 53600 of the California Government Code and the City's adopted investment policy. The City Treasurer has used various investment instruments to receive the highest yield possible while maintaining a portfolio that emphasizes safety and adequate liquidity to meet the City's needs. Permitted investments include repurchase agreements, high-grade commercial paper and banker's acceptances, corporate securities, demand deposits, certificates of deposit, obligations of the U.S. Treasury and agencies, as well as state investment pool. Investments are either federally insured or fully collateralized.

Risk Management

The City is a member of the California Joint Powers Insurance Authority (CJPIA). The CJIPA provides a joint protection wherein cities pool their losses and claims, jointly purchase excess insurance and share the costs of administrative and related costs. The program includes all risk management, property, liability and worker's compensation coverage for member cities. The City has accrued a liability for all known general and workers' compensation claims as of June 30, 2010. In addition, estimated amounts for claims incurred, but not yet reported, have also been accrued.

Pension and other postemployment benefits

The City of Commerce is a member of the California Public Employees Retirement System (CalPERS). CalPERS sets the contribution rates for the City's represented and non-represented employee groups. Participants are required to contribute 7% of their annual covered salary. The City makes contributions required of City employees on their behalf and for their account. The City is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The contribution requirements of the plan members are established by State law. The employer contribution rate is established and may be amended by CalPERS.

The City of Commerce also provides postretirement health, dental and life benefits for retirees. As of the end of the current fiscal year, there were 125 retired employees receiving benefits. These benefits are financed on a pay-as-you-go basis. GAAP does not require governments to report a liability in the financial statements in connection with an employer's obligation to provide these benefits.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Commerce for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2009. This was the 28th consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized CAFR. The 2009 report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contribution made in the preparation of this report.

In closing, without the leadership and support of the City Council of the City, preparation of this report would not have been possible.

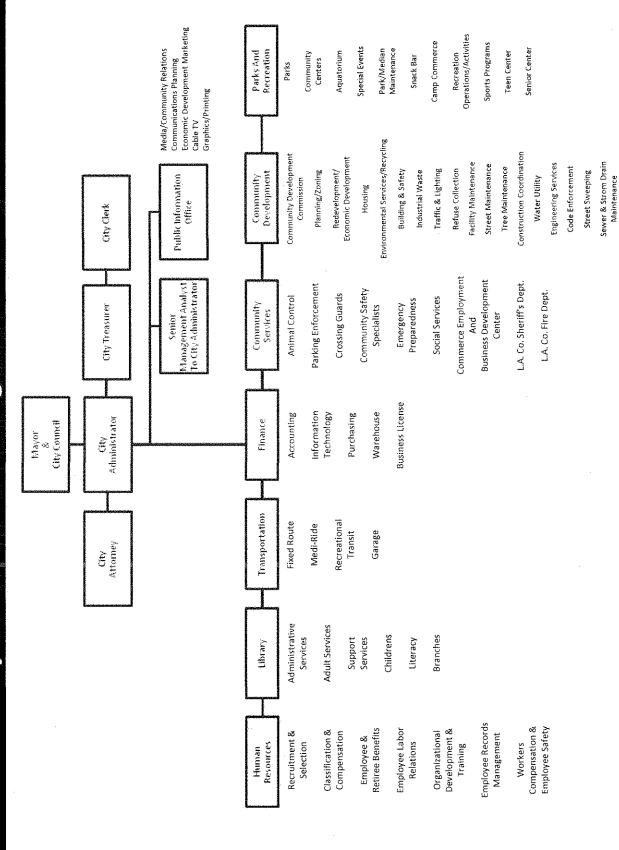

Respectfully submitted,

Jorge Rifá \ City Administrator

Vilko Domic
Director of Finance

The Honorable Mayor and City Council City of Commerce Commerce, California

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Commerce, California, as of and for the year ended June 30, 2010, which collectively comprise of the City's basic financial statements as listed in the accompanying table of contents. These financial statements are the responsibility of the management of the City of Commerce, California. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year partial comparative information has been derived from the financial statements of the City for the year ended June 30, 2009, and in our report dated March 11, 2010, we expressed a qualified opinion on those financial statements.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

We were unable to obtain detail supporting certain capital assets of governmental activities acquired prior to June 30, 2005. As a result, we were not able to satisfy ourselves as to the net book value of these assets in the amount of approximately \$43 million by other auditing procedures.

In our opinion, except for the effects of such adjustments, if any, to the capital assets as noted above, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Commerce, California, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, of the City of Commerce, California for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The information identified in the accompanying table of contents as management's discussion and analysis and required supplementary information are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement

The Honorable Mayor and City Council City of Commerce Commerce, California

and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Commerce's basic financial statements. The introductory section combining and individual nonmajor fund financial statements and schedules and statistical tables listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements, and in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we have also issued a report dated March 24, 2011 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Mayer Hoffman Mc Cann P.C.

Irvine, California March 24, 2011

MANAGEMENT'S DISCUSSION AND ANALYSIS

Fiscal Year Ended June 30, 2010

As management of The City of Commerce, California (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities for the City for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on page i of this report.

FINANCIAL HIGHLIGHTS

- Net assets, the amount by which total assets exceed total liabilities, equal \$103,868,055.
- The City's total net assets decreased by \$12,988,469, due to negative changes in fund balances. Note 18 of the financial statements has additional information on the changes to the fund balances.
- At the close of the current fiscal year, the City's governmental funds reported combined fund balances of \$213,863,300, a decrease of \$16,037,354 from the prior year.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$11,807,678, or 25.9% of total General Fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements 2) fund financial statements and 3) notes to the financial statements. This report also contains required supplementary information and supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the city is improving or deteriorating.

The statement of activities presents information designed to show how the city's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the city include general government operations, community development, public safety, public works, library, and parks and recreation services. The business-type activities of the City include its transit, water and cable television operations. The government-wide financial statements can be found on pages 13 through 15.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and show compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds - Governmental Funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements.

Most of the City's basic services are included in governmental funds. The basis of accounting is different between the governmental fund statements and the government-wide financial statements. The governmental funds focus on near term revenues/financial resources and expenditures, while the government-wide financial statements include both near term and long term revenues/financial resources and expenses. The information in the governmental fund statements can be used to evaluate the City's near term financing requirements and immediate fiscal health. Comparing the governmental fund statements with the government-wide financial statements can help the reader better understand the long term impact of the City's current year financing decisions. To assist in this comparison, reconciliations between the governmental fund statements and the government-wide financial statements are included with the governmental fund balance sheet and the governmental fund statements of revenues, expenditures and changes in fund balances. The governmental fund financial statements can be found on pages 16 through 22.

Proprietary Funds - Proprietary funds are used by governments to account for their business-type activities. Business-type activities provide specific goods or services to a group of

customers that are paid for by fees charged to those customers. There is a direct relationship between the fees paid and the services received.

Enterprise funds of the City are used to report the same functions presented as business-type activities in the government-wide statements with the fund statements providing more detail than is reported in the government-wide statements. The City has three major enterprise funds, the Transit Funds, the Water Fund, and the Cable Television Fund.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses the Central Garage Fund to account for vehicle maintenance and repair services; and the Central Stores Fund to account for acquiring and warehousing supplies utilized by departments within the City. The internal service funds primarily benefit the governmental activities and, therefore, the internal service funds information has been included with the governmental activities in the government-wide financial statements.

The proprietary fund financial statements can be found on pages 23 through 25.

Fiduciary funds

Fiduciary funds account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments or other funds. Fiduciary funds are not included in the government-wide financial statements because their assets are not available to support the City's activities. The City has one Cash Deposits Agency Fund.

The fiduciary fund financial statements can be found on page 26.

Notes to the financial statements

The notes to the financial statements provide additional information that is important to a full understanding of the data in the government-wide and fund financial statements. The notes are located immediately following the basic financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. Required supplementary information may be found immediately following the notes to the financial statements.

The combining statements for other governmental funds, the individual fund schedules, and the internal service funds statements are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The City has presented its financial statements under the reporting model required by the Governmental Accounting Standards Board Statement No. 34 (GASB 34), Basic Financial Statements – and Management's Discussion and Analysis (MD&A) – for State and Local Governments. A comparative analysis of government-wide data will be included in this report.

The statement of net assets can serve as a useful indicator of the City's financial position. The City of Commerce's net assets at June 30, 2010 total \$92,511,273. Following is a condensed version of the government-wide statement of net assets.

Net Assets

Unrestricted	159,586,801	138,159,345	(2,989,115)	(847,500)	156,597,686	137,311,845	
Total Net Assets	92,511,273	85,493,830	11,356,782	10,324,021	103,868,055	95,817,851	

The largest portion of the City's net assets is attributable to the unrestricted assets. The majority of the liabilities are attributable to the City of Commerce Community Development Commission (Commission). The Commission uses debt proceeds to finance its redevelopment projects which include land, housing, street improvements, economic development and park improvements. Once redevelopment projects, that are public facilities, are completed by the Commission, the responsibilities for their continued maintenance and operation are transferred to the City of Commerce. Although completed public facilities and Joint Agency-Private Partnership projects are transferred to the City of Commerce and private developers, the debt remains with the Commission.

Changes in net assets

The changes in net assets table illustrates the increases or decreases in net assets of the City resulting from its operating activities. The City of Commerce's net assets decreased \$12,988,469 in the fiscal year ended June 30, 2010. The decrease was split between the governmental activities decrease of \$14,021,230 and business-type activities increase of \$1,032,761. Following is a condensed version of the City's changes in net assets. The table shows the revenues, expenses and related changes in net assets for governmental and business-type activities.

Change in Net Assets

	Governmen	tal Activities	Business-typ	oe Activities	Total	
Revenues:	<u>2010</u>	2009	2010	2009	2010	2009
Program revenues

Change in net assets	(14,021,230)	(1,506,165)	1,032,761	1,291,740	(12,988,469)	(214,425)
Net assets - beginning of year	106,532,503	86,999,995	10,324,021	9,032,281	116,856,524	96,032,276
Net assets - end of year	92,511,273	85,493,830	11,356,782	10,324,021	103,868,055	95,817,851

The total net assets of the City were \$103,868,055 as of June 30, 2010. This represents a decrease of \$12,988,469 over the prior year as restated. This change is explained more fully below.

The City's total revenues were \$75,634,319. A significant portion of the governmental revenues came from the Casino license tax (27.72%), property taxes (25.53%) and sales tax (16.27%) of the total governmental revenues of \$71,338,951. A significant portion (94.32%) of the business-type activities revenues were collected through operating contributions and grants.

The total cost of all City programs and services during fiscal year ended June 30, 2010 was \$88,622,788. The break down by activity as a percentage of total expenses for selected programs is as follows: Community development 23.75%, General government 18.50%, Public safety (police and fire) 18.46%, parks and recreation 11.87%, interest on long-term debt 11.07%, and business-type activities accounted for 5.33%.

Change in net assets was (\$12,988,469) for the year as compared to last year's change in net assets of (\$214,425). Total net assets at the end of the year were \$103,868,055 (net assets at the beginning of the year were restated to \$116,856,524, see note 17 for further details). The City has ample amounts to provide for its outstanding indebtedness.

Governmental activities experienced a decrease in net assets of \$14,021,230. This is primarily due to less than expected revenues as a result of the current economic recession, including the decline in property values and high unemployment rates.

Business-type activities consist of the Transit, Water and Cable Television. The financial goal of the City's business-type activities is to operate on a more or less "break-even" basis without making significant profit or needing general tax subsidies. For fiscal year ended June 30, 2010, this goal was achieved with the City's total business-type activities having realized an overall increase in net assets of \$1,032,761, primarily due to increases in Operating Contributions and Grants in the Transit Fund. These funds are used to pay debt or invest in capital assets.

FINANCIAL ANALYSIS OF GOVERNMENT FUNDS

Below is an analysis of the City's major governmental fund activities for the year:

	Governmental Funds				
			Amount	Percent	
			Increase	Increase	
	2010	2009	(Decrease)	(Decrease)	
Total Fund Equity:					
General Fund	24,149,848	25,300,815	(1,150,967)	~4.5%	
Card Club Special Revenue	19,118,793	19,119,228	(435)	0.0%	
Community Development Commission Debt Service	54,410,824	57,649,081	(3,238,257)	-5.6%	
General City Capital Projects Fund	61,635,626	65,859,719	(4,224,093)	-6.4%	
Community Development Commission Capital Projects	40,751,109	47,949,732	(7,198,623)	-15.0%	
Total Fund Equity	200,066,200	215,878,575	(15,812,375)		

The General fund balance decreased by \$1,150,967. Reduced revenue due to the impact of the recession was the primary driver of the decline in fund balance.

Community Development Commission Debt Service fund balance decreased \$3,238,257 primarily due to planned spending on debt service and SERAF payments.

General City Capital Projects fund balance decreased by \$4,224,093 primarily due to planned spending on projects.

Community Development Commission Capital Projects fund decreased by \$7,198,623 primarily due to planned spending on projects and site assembly.

FINANCIAL ANALYSIS OF THE CITY'S MAJOR PROPRIETARY FUNDS

Below is an analysis of the fund equity of the City's proprietary funds:

		Proprietary Funds					
			Amount	Percent			
			Increase	Increase			
	2010	2009	(Decrease)	(Decrease			
Net Assets:							
Transit	9,569,649	7,916,721	1,652,928	20.9%			
Water	1,646,059	2,278,177	(632,118)	-27.7%			
Cable Television	141,074	129,123	11,951	9.3%			
Internal Service Funds	140,255	227,249	(86,994)	-38.3%			
Total Net Assets	11,497,037	10,551,270	945,767				
Unrestricted Net Assets:							
Transit	(1,649,989)	(1,274,558)	(375,431)	29.5%			
Water	(1,270,565)	427,058	(1,697,623)	-397.5%			
Cable Television	(68,652)	(102,329)	33,677	-32.9%			
Internal Service Funds	140,255	227,249	(86,994)	-38.3%			
Total Unrestricted Net Assets	(2,848,951)	(722,580)	(2,126,371)				

The Transit Fund net assets increased by \$1,652,928 and unrestricted net assets decreased by (\$375,431). The key factor in the growth of nets assets while having a decline in unrestricted net assets is due to the City including infrastructure.

The Water Fund net assets decreased by (\$632,118) and unrestricted net assets decreased by (\$1,697,6232).

General Fund Budgetary Highlights

The General Fund receives the most public attention since it is where local tax revenues are accounted for and where the most popular municipal services such as police and public works are funded.

The General Fund is the chief operating fund of the City, which is used to account for all discretionary revenues and expenditures necessary to carryout basic government functions that are not accounted for through other special revenue and grant funds. Year-to-date revenues, including transfers-in, totaled \$45,654,473. This is a 7.5% decline when compared to last year's revenue total of \$49,352,868. The down turn in the current economy is attributable to the decrease. Taxes, which includes both sales taxes and property taxes was down by 16.1% or \$3,288,350 when compared to the prior year. The decrease reflects the decline in consumer spending due to the current local and global economic conditions and declining real estate values, mortgage defaults and foreclosures. General Fund expenditures totaled \$46,805,440, including transfers out, and were within the budgeted totals for the fiscal year.

Debt Administration

Below is a schedule of the changes to the City's long-term debt:

	Balance at			Balance at
	July 1, 2009	Additions	Reductions	June 30, 2010
Governmental Activities				
1994 Tax Allocation Refunding Bonds	910,000	-	(75,000)	835,000
1998 Tax Allocation Refunding Bonds	8,160,000	*	(230,000)	7,930,000
2003 Tax Allocation Bonds	50,505,000		(1,105,000)	49,400,000
2004 Lease Revenue Bonds	13,825,000	-	(320,000)	13,505,000
2007 JPFA Revenue Bonds	70,095,000	*	(2,430,000)	67,665,000
Unamortized Bond Costs	(8,688,541)	-	457,291	(8,231,250)
Other Post Employment Benefits	1,957,000	3,293,000	(943,550)	4,306,450
Capital leases	313,826	-	(134,277)	179,549
Compenstated absences	2,846,040	1,963,381	(1,860,838)	2,948,583
Total Long-Term Obligations - Governmental Activities	139,923,325	5,256,381	(6,641,374)	138,538,332
Business Activities				
Compensated Absences	252,675	222,489	(207,504)	267,660
Total Long-Term Obligations	140,176,000	5,478,870	(6,848,878)	138,805,992

As can be seen from the table above, the City has implemented a variety of debt financing mechanisms to finance projects. Information on the long-term liabilities is discussed further in Note 6 of the Financial Statements.

Capital Assets
Below is a schedule of the City's capital assets, net of accumulated depreciation:

			·	***************************************	,		
						Amount	Precent
		June 30,		June 30,		Increase	Increase
		2010		2009		(Decrease)	(Decrease)

Water rights		2,141,222		1,226,994		914,228	
Building and improvements		7,862,834		7,862,834		914,220	74.5%
Less accumulated depreciaiton				,		(704.005)	0.0%
2033 accumulated deprecial(Off		(12,904,458)		(12,112,473)		(791,985)	6.5%
	\$	14 345 007	۲.	11 171 501	,	2 474 276	
	- >	14,345,897	\$	11,171,521	\$	3,174,376	

Governmental capital assets decreased as depreciation of assets exceeded the amount of new purchases for improvements, construction in progress and machinery and equipment. Business-type activity capital assets increased due primarily to construction in progress. See note 5 for further details on capital assets.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

The City of Commerce's economy is clearly linked to the national, state, and regional economy. While the City is moving forward with a transformation in its economical base, its local economy is impacted by the global economy, with resultant recurring revenue fluctuations. Most forecasters are predicting a slow economic recovery in 2011. Detailed information about the economic analysis, revenue assumptions, and other budgetary process parameters utilized in the preparation of the annual budget, can be obtained from the City's 2010-2011 citywide budget.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Commerce finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director at the City of Commerce, 2535 Commerce Way, Commerce, CA 90040.

Governmental Funds

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Assets

June 30, 2010

Fund balances of governmental funds	\$	213,863,300
Amounts reported for governmental activities in the statement of net assets are different because:		
Capital assets, net of depreciation, have not been included as financial resources in governmental fund activity.		
Capital assets Accumulated depreciation		171,340,208 (104,715,247)
The City's investment in a joint venture has not been included in the governmental fund activity.		10,611,494
Long-term debt and compensated absences that have not been included in the governmental fund activity:		
Bonds payable		(131,103,750)
Compensated absences		(2,948,583)
Other long-term liabilities		(4,485,999)
Unamortized bond issuance costs		2,153,592
Accrued interest payable for the current portion of interest due on		÷
bonds payable has not been reported in the governmental funds.		(2,419,629)
Revenues that are measurable but not available. Amounts are recorded		
as deferred revenue under the modified accrual basis of accounting.		2,555,632
To eliminate interfund activities for Redevelopment Tax Allocation Bonds purchased by the City.		(62,480,000)
Internal service funds are used by management to charge the costs of		
certain activities, such as equipment management, to individual funds.		
The assets and liabilities of the internal service funds must be added to the statement of net assets		140,255
Net assets of governmental activities See accompanying notes to the basic financial statements.	<u>\$</u>	92,511,273

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year ended June 30, 2010

Net changes in fund balances - total governmental funds	\$ (16,037,354)
Amounts reported for governmental activities in the statement of activities is different because:	
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Capital asset purchases Decrease in investment in joint venture Depreciation	1,187,821 (163,761) (2,667,654)
Increases and decreases in Investment in Joint Venture are not recorded as revenue or expenditures in the governmental funds.	1,147,357
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. Amortization of issuance costs premiums and discounts are recorded as an adjustment to long-term liabilities and is recorded as an adjustment to interest expense	
Principal expense on bonds Principal expense on interfund bonds Amortization of issuance costs and other fiscal charges	4,294,277 2,005,000 (576,935)
Increases in other post employment benefits are not recorded as expenditures in the governmental funds.	(2,349,450)
The statement of net assets includes accrued interest on long term debt.	(882,466)
To record as an expense the net change in compensated absences in the statement of activities.	(102,543)
Revenues that are measurable but not available. Amounts are not recorded as revenue under the modified accrual basis of accounting.	211,472
Internal service funds are used by management to charge the costs of certain activities, such as computing and communication, building maintenance, fleet maintenance, benefits, equipment leasing, workers' compensation, general liability, to individual funds.	(86,994)
Change in net assets of governmental activities	\$ (14,021,230)

See accompanying notes to the basic financial statements.

# (1) Summary of Significant Accounting Policies

## (a) Reporting Entity

The City of Commerce ("the City") was incorporated in 1960 under the general laws of the State of California. The City operates under the Council – City Administrator form of government.

The accounting policies of the City conform to generally accepted accounting principles as applicable to governments. As required by generally accepted accounting principles, these financial statements present the government and its component units, which are entities for which the government is considered to be financially accountable. The City is considered to be financially accountable for an organization if the City appoints a voting majority of that organization's governing body and the City is able to impose its will on that organization or there is a potential for that organization to provide specific financial benefits to or impose specific financial burdens on the City. The City is also considered to be financially accountable if an organization is fiscally dependent (i.e., it is unable to adopt its budget, levy taxes, set rates or charges, or issue bonded debt without approval from the City). In certain cases, other organizations are included as component units if the nature and significance of their relationship with the City are such that their exclusion would cause the City's financial statements to be misleading or incomplete.

All of the City's component units are considered to be blended component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are reported with the interfund data of the primary government.

The following organizations are considered to be component units of the City:

# Community Development Commission of the City of Commerce

The Community Development Commission of the City of Commerce (the Commission) has established four redevelopment project areas pursuant to the State of California Health & Safety Code, Section 33000 entitled "Community Redevelopment Law". The City Council approved and adopted the Redevelopment Plans for the Commerce Redevelopment Project Areas. These plans provide for the elimination of blight and deterioration, which was found to exist in the project areas. The operations include Capital Projects and Debt Service Fund type activities and have been combined in the accompanying financial statements. Interfund activities within the fund types have been eliminated for financial reporting purposes.

#### Notes to the Basic Financial Statements

(Continued)

# (1) Summary of Significant Accounting Policies, (Continued)

# Community Development Commission of the City of Commerce, (Continued)

Although the Agency is legally separate, it is reported as if it were part of the City because the City Council also serves as the governing board of the Agency. Separate financial statements of the Agency can be obtained at City Hall.

# City of Commerce Joint Powers Financing Authority

The City of Commerce Joint Powers Financing Authority (JPFA) was established pursuant to a Joint Exercise of Powers Agreement dated January 1, 1988 between the City of Commerce and the Community Development Commission of the City of Commerce. The purpose of the JPFA is to provide financing necessary for the construction of various public improvements through the issuance of debt. Activities of the JPFA are included in the Community Development Commission and the Community Center Debt Service Funds and the Water Enterprise Fund of the City. Although the JPFA is legally separate, it is reported as if it were part of the City because the City Council also serves as the governing board of the JPFA. Separate financial statements of the JPFA are not prepared.

## (b) Basis of Accounting and Measurement Focus

The basic financial statements of the City are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

Financial reporting is based upon all GASB pronouncements, as well as the FASB Statements and Interpretations, APB Opinions, and Accounting Research Bulletins that were issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements.

#### Notes to the Basic Financial Statements

(Continued)

# (1) Summary of Significant Accounting Policies, (Continued)

## Government-wide Financial Statements

Government-wide financial statements display information about the reporting government as a whole, except for its fiduciary activities. These statements include separate columns for the governmental and business-type activities of the primary government (including its blended component units), as well as its discreetly presented component units. The City of Commerce has no discretely presented component units. Eliminations have been made in the Statement of Activities so that certain allocated expenses are recorded only once (by function to which they were allocated). However, general governmental expenses have not been allocated as indirect expenses to the various functions of the City.

Government-wide financial statements are presented using the *economic resources measurement focus* and the *accrual basis of accounting*. Under the economic resources measurement focus, all (both current and long-term) economic resources and obligations of the reporting government are reported in the government-wide financial statements. *Basis of accounting* refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33.

Program revenues include charges for services, special assessments, and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the statement of activities to present the net cost of each program.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditure. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as other financing source. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as expenditure.

#### Notes to the Basic Financial Statements

(Continued)

# (1) Summary of Significant Accounting Policies, (Continued)

## Fund Financial Statements

The underlying accounting system of the City is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental, proprietary, and fiduciary funds are presented after the government-wide financial statements. These statements display information about major funds individually and nonmajor funds in the aggregate for governmental and enterprise funds. Fiduciary statements include financial information for fiduciary funds and similar component units. Fiduciary funds of the City primarily represent assets held by the City in a custodial capacity for other individuals or organizations.

#### Governmental Funds

In the fund financial statements, governmental funds are presented using the modified-accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Measurable means that the amounts can be estimated, or otherwise determined. Available means that the amounts were collected during the reporting period or soon enough thereafter to be available to finance the expenditures accrued for the reporting period. The City uses a sixty day availability period.

Revenue recognition is subject to the *measurable* and *availability* criteria for the governmental funds in the fund financial statements. *Exchange transactions* are recognized as revenues in the period in which they are earned (i.e., the related goods or services are provided). *Locally imposed derived tax revenues* are recognized as revenues in the period in which the underlying exchange transaction on which they are based takes place. *Imposed non-exchange* transactions are recognized as revenues in the period for which they were imposed. If the period of use is not specified, they are recognized as revenues when an enforceable legal claim to the revenues arises or when they are received, whichever occurs first. *Government-mandated and voluntary non-exchange transactions* are recognized as revenues when all applicable eligibility requirements have been met.

#### Notes to the Basic Financial Statements

(Continued)

# (1) Summary of Significant Accounting Policies, (Continued)

In the fund financial statements, governmental funds are presented using the current financial resources measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. The reported fund balance (net current assets) is considered to be a measure of "available spendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Non-current portions of long-term receivables due to governmental funds are reported on their balance sheets in spite of their spending measurement focus. Special reporting treatments are used to indicate, however, that they should not be considered "available spendable resources," since they do not represent net current assets. Recognition of governmental fund type revenues represented by noncurrent receivables are deferred until they become current receivables. Noncurrent portions of other long-term receivables are offset by fund balance reserve accounts.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as *expenditures* in the year that resources were expended, rather than as fund assets. The proceeds of long-term debt are recorded as *other financing sources* rather than as a fund liability. Amounts paid to reduce long-term indebtedness are reported as fund expenditures.

When both restricted and unrestricted resources are combined in a fund, expenses are considered to be paid first from restricted resources, and then from unrestricted resources.

#### Notes to the Basic Financial Statements

(Continued)

# (1) Summary of Significant Accounting Policies, (Continued)

# **Proprietary Funds**

The City's enterprise and internal service funds are proprietary funds. In the fund financial statements, proprietary funds are presented using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when the related goods or services are delivered. In the fund financial statements, proprietary funds are presented using the economic resources measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net assets.

Amounts paid to acquire capital assets are capitalized as assets in the internal service fund financial statements, rather than reported as an expenditure. Proceeds of long-term debt are recorded as a liability in the internal service fund financial statements, rather than as an other financing source. Amounts paid to reduce long-term indebtedness of the internal service fund are reported as a reduction of the related liability, rather than as an expenditure.

#### Fiduciary Funds

The City's fiduciary fund is an agency fund. Agency funds are custodial in nature. Assets equal liabilities. Agency funds use the accrual basis of accounting.

Other fund types of the City are as follows:

<u>Enterprise Funds</u> are used to account for operations that are financed and operated in a similar manner to private sector business enterprises, where the intent is that costs of providing goods or services to the general public be financed primarily through user charges.

<u>Internal Service Funds</u> are used to account for the financing of special activities that provide services within the City. These activities include repairs and services, City-owned mobile-equipment and the acquisition and warehousing of supplies utilized by departments within the City.

Agency Fund is used to account for deposits held by the City as trustee or custodian for individuals as an agent for debt service activity.

#### Notes to the Basic Financial Statements

(Continued)

# (1) Summary of Significant Accounting Policies, (Continued)

# (c) <u>Major Funds</u>, Internal Service Funds and Fiduciary Fund Types

The City's major governmental funds are as follows:

<u>General Fund</u> – The primary fund of the City is used to account for all revenue and expenditures of the City not legally restricted as to use.

<u>Card Club Special Revenue Fund</u> – This special revenue fund is used to account for the revenues related to franchise fees received under the Card Club Ordinance. Revenues are primarily used for public safety and are transferred to the General Fund to be spent accordingly.

<u>Community Development Commission Debt Service Fund</u> – This debt service fund is used to account for the payment of debt service of tax allocation bonds used to finance the activities of Redevelopment Project Areas. The retirement of debt is financed through tax increment and investment income.

General City Capital Projects Fund – This fund is used to account for the bond proceeds, interest and other funding that will be used for development, planning and construction and land acquisition within the general city.

<u>Community Development Commission Capital Projects Fund</u> – This fund is used to account for the bond proceeds, interest and other funding that will be used for development, planning, construction and land acquisition within the project area.

The City's major proprietary funds are as follows:

<u>Transit Fund</u> – This fund is used to account for the activities necessary to provide transportation service to the citizens and the industrial community.

<u>Water Fund</u> – This fund is used to account for the water operations service provided to a portion of the residents.

<u>Cable Television Fund</u> – This fund is used to account for the City-owned cable television operations.

# (d) <u>Investments</u>

For financial reporting purposes, investments are adjusted to their fair value whenever the difference between fair market value and the carrying amount is material.

#### Notes to the Basic Financial Statements

(Continued)

# (1) Summary of Significant Accounting Policies, (Continued)

Changes in fair value that occur during a fiscal year are recognized as *investment* income reported for that fiscal year. *Investment* income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

The City pools cash and investments of all funds, except for assets held by fiscal agents. Each fund's share in this pool is displayed in the accompanying financial statements as *cash and investments*. Investment income earned by the pooled investments is allocated to the various funds based on each fund's average cash and investment balance.

## (e) <u>Cash Equivalents</u>

For purposes of the statement of cash flows, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash or so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Cash equivalents also represent the proprietary funds' share in the cash and investment pool of the City of Commerce. Cash equivalents have an original maturity date of three months or less from the date of purchase. For purposes of the statement of cash flows, the entire balance of cash and investments on the combined balance sheet for the internal service fund is considered cash and cash equivalents.

# (f) <u>Capital Assets</u>

Capital assets (including infrastructure) are recorded at cost where historical records are available and at an estimated historical cost where no historical records exist. Contributed capital assets are valued at their estimated fair market value at the date of the contribution. Generally, capital asset purchases in excess of \$5,000 are capitalized if they have an expected useful life of one years or more.

Capital assets include public domain (infrastructure) general fixed assets consisting of certain improvements including roads, streets, sidewalks, medians, and storm drains.

Capital assets used in operations are depreciated over their estimated useful lives using the straight-line method in the government—wide financial statements and in the fund financial statements of the internal service funds. Depreciation is charged as an expense against operations and accumulated depreciation is reported on the respective balance sheet.

#### Notes to the Basic Financial Statements

(Continued)

# (1) Summary of Significant Accounting Policies, (Continued)

The following schedule summarizes capital asset useful lives:

Buildings	10-40 years
Improvements other than buildings	20-30 years
Distribution system	20-30 years
Machinery and equipment	5-13 years
Infrastructure	20-40 years

# (g) Employee Leave Benefits

The City has accrued in the accompanying financial statements the estimated liability for compensated absences earned and not yet taken. Those employees who retire from the City are entitled to 100% of accrued vacation and sick leave. Employees otherwise terminated are entitled to 100% of accrued vacation and 10% of accrued sick leave in excess of 240 hours.

## (h) Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

# (i) <u>Fund Equity</u>

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

#### (i) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

# (k) Prior Year Data

Selected information regarding the prior year has been included in the accompanying financial statements. This information has been included for comparison purposes only and does not represent a complete presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's prior year financial statements, from which this selected financial data was derived.

Negotiable Certificates of Deposit	360 days	None	None

# Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value will be to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

## Notes to the Basic Financial Statements

(Continued)

# (2) Cash and Investments, (Continued)

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity:

		Remaining Maturity (in Months)				
Investment Type	<u>Total</u>	12 Months Or Less	13 to 24 Months	25 Months or Greater		
Negotiable Certificates of						
Deposit	\$ 4,125,515	1,718,791	2,007,185	399,539

Total	\$73,330,372	57,878,244	2,007,185	13,444,943		

## Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, or debt agreements, and the actual rating as of year end for each investment type.

Investment Type	<u>Total</u>	Minimum Legal <u>Rating</u>	<u>AAA</u>	<u>AA</u>	Not <u>Rated</u>
Negotiable Certificates of					
Deposit	\$ 4,125,515	N/A	_		4,125,515

Total	<u>\$73,330,372</u>		15,525,225		57,805,147

#### Notes to the Basic Financial Statements

(Continued)

# (2) Cash and Investments, (Continued)

#### Concentration of Credit Risk

The investment policy of the City contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code, except for U.S. Agency Securities (limited to a face value of \$10 million) and Commercial Paper and Medium-Term Notes (limited to a face value of \$3 million). Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total City investments are as follows:

	Investment	
<u>Issuer</u>	<u>Type</u>	<u>Amount</u>
GE Funding Capital Market	Investment Agreement	\$ 9,768,838

## Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

#### Investment in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

#### Notes to the Basic Financial Statements

(Continued)

## (3) Property Taxes

Under California law, property taxes are assessed and collected by the counties up to 1% of assessed value, plus other increases approved by the voters. The property taxes are recorded initially in a pool, and are then allocated to the cities based on complex formulas. Accordingly, the City of Commerce accrues only those taxes that are received from the County within sixty days after year-end.

Lien date Levy date Due dates

January 1 July 1

Due dates
Collection dates

November 1 and February 1 December 10 and April 10

The Community Development Commission of the City of Commerce's primary source of revenue comes from property taxes. Property taxes allocated to the Commission are computed in the following manner:

- (a) The assessed valuation of all property within the project area is determined on the date of adoption of the Redevelopment Plan.
- (b) Property taxes related to the incremental increase in assessed values after the adoption of the Redevelopment Plan are allocated to the Commission; all taxes on the "frozen" assessed valuation of the property are allocated to the City and other districts.

The Commission has no power to levy and collect taxes and any legislative property tax shift might reduce the amount of tax revenues that would otherwise be available to pay the principal of, and interest on, debt. Broadened property tax exemptions could have a similar effect. Conversely, any increase in the tax rate or assessed valuation, or any reduction or elimination of present exemptions would increase the amount of tax revenues that would be available to pay principal and interest on debt.

# Notes to the Basic Financial Statements

(Continued)

## (4) Lease Receivable

In 1990, the Commission entered into a 50 year lease with three individuals on a certain site owned by the Commission. The lease called for the site to be developed as a truck stop and gas station. The lease calls for fixed base annual rent of \$65,025 for the first five years and adjusted every five years thereafter with a minimum adjustment of 15% and a maximum adjustment of 50%. Annual lease payments are less than the annual principal due through 2026, resulting in an increasing principal balance. The outstanding principal balance as of June, 30, 2010 is \$2,363,355.

Minimum future rental revenues, including principal and interest, on the lease are as follows:

Fiscal Year <u>Ending</u>	Lease <u>Revenue</u>
2011 2012	\$ 179,439 179,439
2013	179,439

#### 1994 Tax Allocation Refunding Bonds

In June 1994, the Authority issued \$1,685,000 in revenue bonds at an average interest rate of 6.4%. The bonds were issued for the purposes of refunding the \$740,000 of Project No. 3 bonds, as well as to generate additional funds to sustain certain activities of Project No. 3. These bonds are secured by the 1994 Authority loan with the Commission. The loan payments from the project area to the Authority coincide with the bond debt service payments. The bonds mature in various amounts ranging from \$70,000 to \$105,000 through the year 2024. The amount outstanding at June 30, 2010 is \$835,000.

Future principal and interest payments on the 1994 tax allocation refunding bonds are as follows:

Fiscal Year			
<u>Ending</u>	<u>Principal</u>	Interest	Total
2011			
2011	\$ 80,000	50,493	130,493

## 1998 Tax Allocation Refunding Bonds

In June 1998, the Community Development Commission issued \$9,935,000 in tax allocation refunding bonds for the Merged Project Area with an average interest rate of 5.64%. The bonds were issued for the purpose of refunding the Commission's \$9,155,000 outstanding principal amount of Project Area 2 1991 Revenue Bonds, funding a reserve and paying the bond issuance cost. The advance refunding extended debt service payments by six years and resulted in an increase if total debt service payments of \$41,004 and an economic gain (the difference between the present values of the debt service payments on the old debt and the new debt) of \$1,161,821. The bonds mature in various amounts ranging from \$155,000 to \$5,180,000 through 2028. It is anticipated that the amounts will be repaid from the future tax increment revenue received for the project area. The amount outstanding at June 30, 2010 is \$7,930,000.

Future principal and interest payments on the 1998 tax allocation refunding bonds are as follows:

Fiscal Year			
Ending	<u>Principal</u>	Interest	Total
2011	\$ 245,000	450,135	695,135

## 2003 Tax Allocation Bonds

In December 2003, the Community Development Commission issued a total of \$52,525,000 tax allocation bonds for Project Area 1, Project Area 4 and Merged Project Area. The Bonds were issued for financing various redevelopment and low and moderate income housing projects. The proceeds of the Bonds were also used to make a deposit to reserve accounts and pay the bonds issuance costs. At the same date, the City of Commerce Joint Powers Financing Authority issued a total of \$52,525,000 tax revenue bonds to purchase the tax allocation bonds issued by the Community Development Commission. The interest rates of the revenue bonds ranges from 4% to 5.125%. The obligation of the Authority is secured by a pledge and assignment under the indenture of amounts derived from the payment of debt service on the tax allocation bonds. This payment will derive from certain tax increment revenues and other amounts payable to the Commission. The bonds mature in various amounts ranging from \$1,030,000 to \$7,365,000 through the year 2036. The amount outstanding at June 30, 2010 is \$49,400,000.

Future principal and interest payments are as follows:

Fiscal Year			
<u>Ending</u>	<u>Principal</u>	<u>Interest</u>	Total
2011	\$ 1,170,000	2,414,151	3,584,151
2012	1,070,000	2,355,420	3,425,420
2013	1,120,000	2,301,676	3,421,676

## Revenue Bonds

## 2004 Lease Revenue Bonds

In October 2004, the City of Commerce Joint Powers Financing Authority issued \$15,040,000 in Community Center Lease Revenue Bonds. The bonds are special limited obligations of the Authority payable solely from and secured by revenues, consisting primarily of base rental payments to be made by the City to the Authority pursuant to a lease dated as of October 1, 2004 by and between the Authority and the City. The bonds were composed of \$7,785,000 serial bonds with interest rates ranging from 2.00% to 4.375% and maturity dates from 2005 through 2024, \$3,150,000 term bonds with an interest rate of 5.00% maturing in 2029, and \$4,015,000 term bonds with an interest rate of 5.00% maturing in 2034. The bonds were issued to refund the Authority's \$8,590,000 outstanding Community Center Lease Revenue Bonds, Series 1997A and to finance the costs of construction of the City Hall Expansion Project. The bonds mature in various amounts from \$295,000 to \$885,000 through 2034. The amount outstanding at June 30, 2010 is \$13,505,000.

Future principal and interest payments are as follows:

Fiscal Year			
<u>Ending</u>	<u>Principal</u>	Interest	Total

## 2007 Revenue Bonds

## Financing Authority Bonds

In October, 2007, the City of Commerce Joint Powers Financing Authority issued \$72,305,000 in Revenue Bonds. The proceeds of the bonds were used to purchase \$66,385,000 of the Community Development Commission of the City of Commerce Redevelopment Project No. 1 Tax Allocation Bonds, 2007 A and B Series (Commission Bonds). The remaining proceeds will be used to finance various capital projects, including the library renovation. Unspent bond proceeds at June 30, 2010 are \$4,993,153 and are invested in the Commission's Local Agency Investment Fund. Interest on the bonds is payable semi-annually on February 1 and August 1, commencing February 1, 2008. The fixed rates of interest vary from 3.500% to 6.500% per annum. Principal is payable in annual installments ranging from \$105,000 to \$6,230,000 commencing August 1, 2008 to July 1, 2027. The obligation of the Authority is secured by a pledge and assignment under the indenture of amounts derived from the payment by the Commission of debt service on the Commission Bonds. The amount outstanding at June 30, 2010 is \$67,665,000.

#### Commission Bonds

In October 2007, the Community Development Commission issued \$58,885,000 of Series A Tax Allocation Bonds and \$7,500,000 of Series B Tax Allocation Bonds. The bonds were issued for the purpose of refunding the 1991 Series A Tax Allocation Bonds, the 1997 Series A Tax Allocation Bonds, the 2003 Series A-1 Tax Allocation Bonds, and the 2003 Series A-H Tax Allocation Bonds. As a result, the refunded bonds are considered to be defeased and the liabilities have been removed from the Statement of Net Assets. The reacquisition price exceeded the net carrying amount of the old debt by \$9,145,832. This amount is being netted against the new debt and amortized over the remaining life on the refunded debt, which is shorter than the life of the new debt issued. Interest on the bonds accrues at rates between 3.5% and 6.5% and are payable on February 1 and August 1. Bonds mature in various amounts ranging from \$105,000 to \$6,230,000 through 2028. At June 30, 2010, the amount outstanding was \$62,480,000.

For Government-Wide financial statements, the Commission Bonds in the amount of \$62,480,000 and the corresponding City held investment in the Commission Bonds have been eliminated.

## (7) Interfund Receivables and Payables

Current interfund receivables and payables balances at June 30, 2010 are as follows:

Due from other funds	Due to other funds	<u>Amount</u>
General Fund	Transit Fund Other Governmental Funds Internal Service Funds Water Fund Cable Television Fund	\$ 4,527,200 (b) 88,223 (a) 394,097 (a) 3,608,662 (b) 125,000 (a)
	Total General Fund	8,743,182
City Capital Projects Fund	Other Governmental Funds	<u>668,807</u> (a)
CDC Debt Service Fund	CDC Capital Projects Fund	_22,186,753 (b)
CDC Capital Projects Fund	CDC Debt Service Fund	339,932 (b)
Other Governmental Funds	Other Governmental Funds	115,583 (a)
Transit Fund	Other Governmental Funds	<u>866,325</u> (b)
	Total	\$32,920,582

- (a) Short term borrowing to cover temporary cash shortfalls.
- (b) Certain portions of these balances have been outstanding for more than a year. There are currently no formal agreements or repayment terms for these interfund borrowings.

Noncurrent interfund receivable and payable balances at June 30, 2010 are as follows:

Advances to other funds	Advances from other funds	<u>Amount</u>
General Fund Card Club Special Revenue Fund Water fund	CDC Capital Projects Fund CDC Capital Projects Fund CDC Capital Projects Fund	\$12,100,000 (c) 3,000,000 (d) _2,700,000 (d)
	Total	\$17,800,000

(c) As of June 30, 2010, the amount due to the General Fund from CDC Capital Projects was \$12,100,000. This consists of several outstanding advances with amounts ranging from \$100,000 to \$6,000,000. The largest advance is in the amount of \$6,000,000 loaned to the CDC was entered into on March 3, 1992 and accrues interest at 7.5% per annum. The other material outstanding advance of \$5,000,000 loaned to the CDC on November 2, 1999 accrues interest at 7.5% per annum.

## Notes to the Basic Financial Statements

Transit Fund	Other Governmental Funds	1,436,415(D)
Cable Television Fund	General Fund	274,742
Internal Service Funds	General Fund	90,000
Other Governmental Funds Subtotal	General Fund Other Governmental Funds	917,057 7,105 924,162
	Total	<u>\$38,890,945</u>

#### Notes to the Basic Financial Statements

(Continued)

# (8) Interfund Transfers, (Continued)

The following describes the major transfers in and transfers out included in the financial statements:

#### Transfers to Major Funds

- (A) \$20,001,039 was transferred from the Card Club Special Revenue fund to the General Fund is primarily for public safety activities.
- (A) \$928,331 was transferred from the CDC Capital Projects Fund to the CDC Debt Service Fund to pay a portion of the CDC long term liabilities' debt service.
- (C) \$6,118,151 was transferred from the CDC Debt Service Fund to the CDC Capital Projects Fund to fund the 20% housing set-aside requirement and to fund various operations and capital projects.
- (D) \$1,436,415 was transferred to the Transit Fund from the Prop A Local Return Tax (\$1,171,459) and UDAG (\$264,956) Funds to reimburse the Transit fund for expenses incurred and reimbursed under Proposition A and UDAG.

#### (9) Defined Benefit Pension Plan

#### Plan Description

The City of Commerce contributes to the California Public Employees Retirement System (PERS), an agent multiple-employer public employee defined benefit pension plan. PERS provides retirement, disability benefits, and death benefits to plan members and beneficiaries. PERS acts as a common investment and administrative agent for participating public entities within the State of California. Copies of PERS' annual financial report may be obtained from its executive office at 400 "P" Street, Sacramento, California 95814.

Participants are required to contribute 7% of their annual covered salary. The City makes the contributions required of City employees on their behalf and for their account. Benefit provisions and all other requirements are established by state statute and town contract with employee bargaining groups

Under GASB 27, an employer reports an annual pension cost (APC) equal to the annual required contribution (ARC) plus an adjustment for the cumulative difference between the APC and the employer's actual plan contributions for the year. The cumulative difference is called the net pension obligation (NPO). The ARC for the period July 1, 2009 to June 30, 2010 has been determined by an actuarial valuation of the plan as of June 30, 2007. The contribution rate indicated for the period is 8.882% of payroll for the

## Notes to the Basic Financial Statements

(Continued)

# (9) Defined Benefit Pension Plan, (Continued)

miscellaneous plan. In order to calculate the dollar value of the ARC for inclusion in financial statements prepared as of June 30, 2010, this contribution rate would be multiplied by the payroll of covered employees that was actually paid during the period July 1, 2009 to June 30, 2010.

A summary of principle assumptions and methods used to determine the ARC is shown below.

Valuation Date Actuarial Cost Method Amortization Method Average Remaining Period Asset Valuation Method Actuarial Assumptions:

Investment Rate of Return Projected Salary Increases

Inflation Payroll Growth Individual Salary Growth June 30, 2007

Entry Age Actuarial Cost Method

Level Percent of Payroll

32 Years as of the Valuation Date

15 Year Smoothed Market

7.75% (net of administrative expenses) 3.25% to 14.45% depending on Age, Service,

and type of employment

3.00% 3.25%

A merit scale varying by duration of

employment coupled with an assumed annual inflation component of 3 % and an annual

production growth of 0.25%.

Initial unfunded liabilities are amortized over a closed period that depends on the plan's date of entry into CalPERS. Subsequent plan amendments are amortized as a level % of pay over a closed 20-year period. Gains and losses that occur in the operation of the plan are amortized over a rolling period, which results in an amortization of 6% of unamortized gains and losses each year. If the plan's accrued liability exceeds the actuarial value of plan assets, then the amortization period may not be lower than the payment calculated over a 30 year amortization period. The unfunded liability is amortized over a period ending June 30, 2026.

The Schedule of Funding Progress below shows the recent history of the actuarial value of assets, actuarial accrued liability, their relationship, and the relationship of the unfunded accrued liability to payroll.

#### (10) Post Employment Benefits Plan

Plan Description: The City administers a single-employer defined benefit plan which provides medical insurance benefits to eligible retirees and their spouses in accordance with various labor agreements. The City has not established a trust for the purpose of holding assets accumulated for plan benefits. After age 65, Medicare automatically becomes the primary provider of health coverage. The City's defined benefit plan becomes the secondary provider. Eligible retirees will have no noticeable change in health benefits or plan administration; however, there is a reduction in the City's cost of health coverage as the secondary provider. The City's defined benefit plan administrator establishes the cost of secondary provider rates annually. The City will pay 100% for eligible retirees' health coverage.

#### Notes to the Basic Financial Statements

(Continued)

### (10) Post Employment Benefits Plan, (Continued)

Eligibility: Employees are eligible for retiree health benefits if they retire from the City on or after age 50 with at least 5 years of service, and are eligible for a PERS pension. Membership of the plan consisted of the following at June 30, 2010, the date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits Active plan members	125 180
Total	305

City's Funding Policy: The contribution requirements of plan members and the City are established and may be amended by City Council. The contribution required to be made under City Council and labor agreement requirements is based on a pay-as-you-go basis (i.e., as medical insurance premiums become due). For fiscal year 2009-10, the City contributed \$943,550 to the plan for current premiums.

Annual OPEB Cost and Net OPEB Obligation. The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation for these benefits:

Annual required contribution	\$3,355,000
Interest on net OPEB obligation	83,000
Adjustments to annual required contributions	(145,000)
Annual OPEB cost (expense)	3,293,000
Contributions made (including premiums paid)	(943,550)
Increase in net OPEB obligation	2,349,450
Net OPEB obligation-beginning of year	1,957,000
Net OPEB obligation-end of year	<u>\$4,306,450</u>

#### Notes to the Basic Financial Statements

(Continued)

### (10) Post Employment Benefits Plan, (Continued)

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year ended June 30, 2010 and the two preceding years were as follows:

Fiscal <u>Year</u>	Annual <u>OPEB Cost</u>	Percentage of Annual OPEB Cost Contributed	Net OPEB <u>Obligation</u>
6/30/08	N/A	N/A	N/A
6/30/09	\$3,109,000	37%	1,957,000
6/30/10	3,293,000	29%	4,306,450

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for the benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial assets, consistent with the long-term perspective of the calculations.

The actuarial cost method used for determining the benefit obligations is the Frozen Entry Age Actuarial Cost Method. The actuarial assumptions included a 4.75 percent investment rate of return, which is the assumed rate of the expected long-term investment returns on plan assets calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 3.4 percent initially, reduced by decrements of 0.5 per year to an ultimate rate of 2 percent after the third year. The City is using a 4% payroll inflation rate. The UAAL is being amortized as a level percentage of projected payroll over a closed 30 year period.

### (11) Claims Payable/Self Insurance

The City of Commerce is a member of the California Joint Powers Insurance Authority (Authority). The Authority is composed of 122 California public entities and is organized under a joint powers agreement pursuant to California Government Code §6500 et seq. The purpose of the Authority is to arrange and administer programs for the pooling of self-insured losses, to purchase excess insurance or reinsurance, and to arrange for group purchased insurance for property and other lines of coverage. The California JPIA began covering claims of its members in 1978. Each member government has an elected official as its representative on the Board of Directors. The Board operates through a nine-member Executive Committee.

General Liability - Each member government pays a primary deposit to cover estimated losses for a fiscal year (claims year). After the close of a fiscal year, outstanding claims are valued. A retrospective deposit computation is then made for each open claims year. Claims are pooled separately between police and non-police. Costs are allocated to members by the following methods within each of the four layers of coverage: (1) the first \$30,000 of each occurrence is charged directly to the member's primary deposit; (2) costs from \$30,000 to \$750,000 and the loss development reserves associated with losses up to \$750,000 are pooled based on the member's share of losses under \$30,000; (3) losses from \$750,000 to \$5,000,000 and the associated loss development reserves are pooled based on payroll; (4a) costs of covered claims from \$5,000,000 to \$10,000,000 are paid under reinsurance policies and are subject to a \$2,500,000 annual aggregate deductible; (4b) costs of covered claims from \$10,000,000 to \$50,000,000 are covered through excess insurance policies; (4c) Costs of covered claims for subsidence losses are paid by excess insurance with a sub-limit of \$25,000,000 per occurrence per member. This \$25,000,000 subsidence sub-limit is composed of \$10,000,000 in reinsurance and \$15,000,000 in excess insurance. The excess insurance layer has a \$15,000,000 annual aggregate. The costs associated with 4a, 4b, and 4c are estimated using actuarial models and pre-funded as part of the primary and retrospective deposits.

The overall policy limit for each member including all layers of coverage is \$50,000,000 per occurrence

#### Notes to the Basic Financial Statements

(Continued)

### (11) Claims Payable/Self Insurance, (Continued)

Workers' Compensation - The City of Commerce also participates in the workers' compensation pool administered by the Authority. Each member pays a primary deposit to cover estimated losses for a fiscal year (claims year). After the close of a fiscal year, outstanding claims are valued. A retrospective deposit computation is then made for each open claims year. Claims are pooled separately between public safety and non-public safety. Costs are allocated to members by the following methods within each of the four layers of coverage: (1) the first \$50,000 of each loss is charged directly to the member's primary deposit; (2) losses from \$50,000 to \$100,000 and the loss development reserve associated with losses up to \$100,000 are pooled based on the member's share of losses under \$50,000; (3) losses from \$100,000 to \$2,000,000 and the loss development reserves associated with those losses are pooled based on payroll; (4) losses from \$2,000,000 up to statutory limits are paid under an excess insurance policy. Protection is provided per statutory liability under California Workers' Compensation law.

Employer's Liability losses are pooled among members to \$2,000,000, coverage from \$2,000,000 to \$4,000,000 is purchased as part of an excess insurance policy, and losses from \$4,000,000 to \$10,000,000 are pooled among members.

Environmental Insurance - The City of Commerce participates in the pollution legal liability and remediation legal liability insurance which is available through the Authority. The policy covers sudden and gradual pollution of scheduled property, streets, and storm drains owned by the City of Commerce. Coverage is on a claims-made basis. There is a \$50,000 deductible. The Authority has a limit of \$50,000,000 for the 3-year period from July 1, 2008 through July 1, 2011. Each member of the Authority has a \$10,000,000 sub-limit during the 3-year term of the policy.

Property Insurance - The City of Commerce participates in the all-risk property protection program of the Authority. This insurance protection is underwritten by several insurance companies. The City of Commerce property is currently insured according to a schedule of covered property submitted by the City of Commerce to the Authority. The City of Commerce currently has all-risk property insurance protection in the amount of \$130,998,869. There is a \$5,000 deductible per occurrence except for non-emergency vehicle insurance which has a \$1,000 deductible. Premiums for the coverage are paid annually and are not subject to retroactive adjustments.

Crime Insurance - The City of Commerce purchases crime insurance coverage in the amount of \$1,000,000 with a \$2,500 deductible. The fidelity coverage is arranged by the Authority. Premiums are paid annually and are not subject to retroactive adjustments.

During the past three fiscal (claims) years, none of the above programs of protection have had settlements or judgments that exceeded pooled or insured coverage. There have been no significant reductions in pooled or insured liability coverage from coverage in the prior year.

#### Notes to the Basic Financial Statements

### (12) Commerce Refuse to Energy Authority

The City is a 50% participant with the County Sanitation District No. 2 of Los Angeles County (District) in the Commerce Refuse to Energy Authority (CREA). The CREA was created for the purpose of Constructing and operating a facility to dispose of commercial/light industrial non-hazardous and mixed residential solid waste and to recover energy there from. The Board of Directors of the CREA is comprised of six members. Three directors are appointed by the City and three by the District. The CREA has responsibility for operation and maintenance of the facility.

The City and the District have each contributed \$2,000,000 to provide the initial working capital for the project. The City's contribution included the value of the land on which the facility was constructed as well as expenditures made prior to the execution of the Joint Powers Agreement. In addition, a \$1,000,000 grant was received from the California Integrated Waste Management Board that is to be repaid from net revenues and bears no interest. Repayment of the grant began in 1996 from net revenues.

Net revenues are divided between the City, the District and the Waste Management Board. However, payments to the Waste Management Board shall not exceed \$200,000 in any year. Once the grant has been repaid, net revenues will be distributed equally to the City and the District until such time as the City's contributed capital equals zero; then at a rate of \$200,000 per year or 50% of the total distribution, whichever is less, to the City with the remainder to the District until such time as the District's contributed capital equals zero; then equally to the City and the District upon termination. The City accounts for the joint venture under the equity method of accounting. Complete financial statements for the CREA can be obtained from the Los Angeles County Sanitation District, 1955 Workman Mill Rd., Whittier, CA 900601.

	<u>CREA</u>	Commerce's 50% Equity
Net assets at June 30, 2009	\$18,928,273	9,464,137
Increase in equity for the year ended June 30, 2010	2,294,714	1,147,357
Net assets at June 30, 2010	<u>\$21,222,987</u>	10,611,494

#### (13) Contingencies

Various claims and suits have been filed against the City in the normal course of operations. Although the outcome of these lawsuits is not presently determinable, in the opinion of management, the resolution of these matters will not have a material adverse effect on the financial position of the City.

#### Notes to the Basic Financial Statements

(Continued)

### (14) Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Section 457 of the Internal Revenue Code. The plan is available to all employees and permits them to defer a portion of their salary until future years. Participation in the plan is optional and compensation, once deferred, is not available to employees until termination, retirement, death or unforeseeable emergency.

The ICMA Retirement Corporation, one of the City's two deferred compensation plan administrators, holds all plan assets in a trust account for the exclusive benefit of the plan participants. Aetna Life Insurance and Annuity Company, the other plan administrator, maintains all of the plan assets in an annuity contract for the exclusive benefit of the plan participants. The amounts of compensation deferred under the plan, all property and rights purchased with those amounts, an all income attributable to those amounts are held in such account for the exclusive benefit of the City employee participant and their beneficiaries.

While the City has the power and authority to administer and adopt rules and regulations for the plan, all investment decisions under the plan are the responsibility of the plan participants. The assets of the plan are not owned by the City and the City has no liability for losses under the plan.

### (15) Expenditures in Excess of Appropriations

Expenditures for the year ended June 30, 2010 exceeded the appropriations of the following fund(s)/department(s):

	<u>Budget</u>	Actual	<u>Variance</u>
Community Development Block Grant Fund	\$ 44,527	359,180	(314,653)
Community Development Commission Debt Service Fund *	10,824,474	20,767,491	(9,943,017)
Community Development Commission Capital Projects Fund	15,695,556	16,420,222	(724,666)

^{*} The budget variance includes unbudgeted SERAF payments required by the State of California in the amount of \$7,022,026.

#### Notes to the Basic Financial Statements

(Continued)

#### (16) Fund Deficit

As of June 30, 2010, the Community Development Block Grant Fund reported a fund deficit of \$8,854. Management is reviewing the deficit and will implement a remedy during the upcoming budget process. Management is currently looking at a phased in approach over a three year period.

### (17) Restatement of Beginning Fund Balances/Net Assets

In prior years, the City's Governmental Activities excluded general infrastructure assets in the statement of net assets as required by GASB statement number 34. During the fiscal year ended June 30, 2010, the City retroactively reported infrastructure assets not previously reported.

The beginning fund balance/net assets were restated for property held for resale as a result of a detailed evaluation of properties held by the Community Development Commission.

Additionally, two adjustments were made to the beginning fund balance of the General Fund to properly report interest receivable and accounts payable at the beginning of the year.

The following schedule summarizes the effect of the prior period adjustment to the Governmental Fund Financial Statements and the Government-Wide Financial Statements.

	General <u>Fund</u>	CDC Capital <u>Projects</u>	Statement of Activities
Net assets/fund balance at beginning of year, as previously reported	\$25,621,018	44,934,561	95,817,851
Net property held for resale and land additions/deletions	-	3,015,171	3,071,171
Adjustment to equity investment in CREA	-	-	8,549,827
To properly reflect beginning receivable and payable accruals	(320,203)	••	(320,203)
Net infrastructure assets retroactively reported for GASB 34 implementation	-		9,737,878
Net assets/fund balance at beginning of year, as restated	<u>\$25,300,815</u>	<u>47,949,732</u>	116,856,524

#### Notes to the Basic Financial Statements

(Continued)

### (18) Pledged Tax Revenues

All tax revenues received by the Community Development Commission other than the amount required by law to be deposited in a low and moderate income housing fund, are required to be used to meet debt service requirements of the bond indentures for the 1994, 1998, 2003, and 2007 Tax Allocation Bonds before any payments may be made on other obligations of the Community Development Commission.

### (19) Subsequent Events

On February 2, 2011, the City filed a Non-Payment Related Default for the 2007A and 2007B Tax Allocation Bonds and the 2003A, 2003B, and 2003C Tax Allocation Bonds. The filing disclosed a projected shortfall in tax increment in Project Area No. 1 to pay principal and interest on the bonds in the amount of \$31,338,036. To remedy the situation, on February 1, 2011 the Community Development Commission approved a transfer of tax increment from Project Area No. 4 to Project Area No. 1 in the amount of \$29,200,000. Additionally, the Community Development Commission plans to repurchase certain bonds in the secondary market with Project Area No. 1 cash on hand.

On April 6, 2010, the City adopted a supplemental retirement program through the Public Agency Retirement System that acted as an incentive to encourage qualified employees to voluntarily retire from the City. The goal of the program was to accelerate the normal rate of attrition, thus allowing the City to rapidly reduce its workforce and create budget savings. To be considered for the program, an employee must be (1) employed by the City as of April 20, 2010, (2) eligible to retire under PERS as of July 31, 2010, (3) would have completed at least five years of City service as of December 31, 2010, (4) resigned from City employment effective July 31, 2010, and (5) retire under PERS as of August 1, 2010.

As of July 31, 2010, seventeen employees retired from the City. The City incurred a leave payout liability in fiscal year 2010/11 totaling almost \$490,000. All costs of the program are expected to be covered by future salary savings.

### Notes to Required Supplementary Information

Year ended June 30, 2010

### (1) Budgets and Budgetary Accounting

The City of Commerce, a general law city in the State of California, does not legally require a budget. However, the City Council annually reviews and adopts a budget in accordance with GAAP as a management control device for all funds except the Joint Powers Financing authority Debt Service Fund. Each May, the City Administrator submits his proposed budget to the City Council. The City Council holds public hearings and may modify the appropriations by majority approval. Budgets are adopted at the object level. Management is not authorized to transfer amounts within the individual fund budgets without the approval of the City Council. Management may transfer amounts within the function level within a fund without the approval of City Council. Additional appropriations during the year may be submitted to the City Council for review and approval.

SUPPLEMENTARY SCHEDULES

### NON-MAJOR SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues (other than expendable trusts and major capital projects) and the related expenditures that are legally required to be accounted for in a separate fund. The City of Commerce has the following Non-Major Special Revenue Funds:

<u>Urban Development Action Grant (UDAG) Fund</u> - To account for loan repayments of the City's UDAG from developers and businesses and expenditures are recorded for HUD approved projects.

<u>Supplemental Law Enforcement Fund</u> - To account for the City's allocation from the state under Assembly Bill 3229, which supplements frontline law enforcement costs used to supplement existing police services.

<u>Local Law Enforcement Block Grant Fund</u> - To account for revenues and expenditures of the federal Local Law Enforcement Block Grant that assist in projects that reduce crime and improve public safety.

<u>Prop A Local Return Tax Fund</u> - To account for the City's Prop A local return allocation and Prop A money purchased from other cities with General Fund money. Revenues are to be spent for public transit purposes and are transferred to the Transit Enterprise Fund to be spent accordingly.

<u>State Gas Tax Fund</u> - To account for gasoline allocations made by the State of California. These revenues are restricted by the State to expenditures for street-related purposes only.

<u>Community Development Block Grant (CDBG) Fund</u> - To account for CDBG allocations received and expenditures incurred for allowable projects; primarily home improvements of eligible households.

<u>Air Quality Management District</u> - To account for clean air fees collected by the State and distributed by the Southern California Air Quality Management District to cities for clean air projects.

#### NON-MAJOR DEBT SERVICE FUNDS

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, governmental long-term debt principal and interest.

The City of Commerce has the following Non-Major Debt Service Funds:

<u>Community Center Fund</u> – To account for issuance and retirement of lease revenue bonds used to assist in the construction of the Rosewood Park Community Center.

<u>Joint Powers Financing Authority Fund</u> - To account for issuance, retirement and cash with fiscal agent held in reserve of bonds issued by the Joint Powers Financing Authority.

#### **INTERNAL SERVICE FUNDS**

Internal service funds are used to account for activities involved in rendering services to departments within the City. Costs of materials and services used are accumulated in this fund and charged to the user departments as such goods are delivered or services rendered.

The City of Commerce has the following Internal Service Funds:

<u>Central Garage Fund</u> – This fund is used to account for the repair and service of City-owned mobile equipment.

<u>Central Stores Fund</u> – This fund is used to account for the acquisition and warehousing of supplies utilized by departments within the City.

2010	1,068,751	197,738		1,266,489	2,536,257	454,588		2,990,845	0.093%

Beginning with the fiscal year ended June 30, 2002, exemptions are netted directly against the individual property categories.

#### NOTE:

In 1978 the voters of the State of California passed Proposition 13 which limited property taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum increase of 2%). With few exceptions, property is only reassessed at the time that it is sold to a new owner. At that point, the new assessed value is reassessed at the purchase price of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

#### NOTE

In 1978, California voters passed Proposition 13 which sets the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of the Example Unified School District bonds.

2010	179,549	139,335,000	139,514,549	3.28%	100

General bonded debt is debt payable with governmental fund resources and general obligation bonds recorded in enterprise funds (of which, the City has none).

Assessed value has been used because the actual value of taxable property is not readily available in the State of California.

Total direct debt		\$ 7,584,138,810	

#### Notes:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

Source: California Municipal Statistics, Inc.

¹ For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value.

Total debt applicable to the limit as a percentage of debt limit	13.9%	14.3%	13.2%	7.4%		

The Government Code of the State of California provides for a legal debt limit of 15% of gross assessed valuation. However, this provision was enacted when assessed valuation was based upon 25% of market value. Effective with the 1981-82 fiscal year, each parcel is now assessed at 100% of market value (as of the most recent change in ownership for that parcel). The computations shown above reflect a conversion of assessed valuation data for each fiscal year from the current full valuation perspective to the 25% level that was in effect at the time that the legal debt margin was enacted by the State of California for local governments located within the state.
