We want to hear from you! Join us and share your ideas about the Draft Housing Element and how the City can better address housing needs for all of the City's residents and its stakeholders.

Community input is critical to developing a Housing Element that responds to the community's needs, values and preferences. Your ideas could help shape the City's future !

### What is a Housing Element?

The Housing Element provides goals, policies and actions that help the City of Commerce plan for existing and future housing needs for all segments of its population and expresses community goals about housing.
